REMINDER: Add middle school math and/or language other than English, if applicable

Review the instructions below very carefully. Failure to follow instructions will delay your admission decision or your admission decision.

Report all courses that will be used to satisfy the A-G subject requirements. Do not include non-college prep Health or Physical Education.

California high school students: the course title appears once you enter the first few letters of the title. If you do not see your high school in the **High Schools Attended** section and confirm that your high school was selected from the available options, reporting a California high school or high school courses is highly discouraged and will delay the processing of your application.

Be sure to add any math (algebra or higher) and/or language other than English courses (LOTE level 1 or higher) and have continued the course progression into 9th grade to receive consideration. You can then assign the course to the A-G area you are unsure which A-G area your course falls under, visit the [A-G Course List](#).

If you took a course for only one term, select **No Course** for the term you will not earn a grade in.

If you completed college courses while in high school, report those courses in the College Coursework section. If you took college courses while in high school and do not see the college coursework section available, go back to your Extended Profile and be sure you indicated that you completed college coursework while in high school.
