Public Comment

Chair Bleich called for public comment. David Murray, California Department of Transportation, District V spoke about the CSUMB Master Plan; Manny Lares, Student, CSUDH, spoke about how his experience at CSUDH had enriched his professional experience, but that continued cuts to the campus budget would adversely affect so many students; Pat Gantt, president CSUEU stated that CSUEU would continue to work with the CSU on the budget so that CSU is fully funded to serve students; Kim Geron, CFA Vice President spoke against raising

student fees and proposed that the board support SB656; Daniel Santana, CFA student intern, SFSU, spoke against raising student fees; Honora Keller, CFA student intern, SFSU, talked about the problem at many campuses that students are having with crowded classrooms; Kayla Mason, CFA student intern, CSUDH, spoke against raising fees because of the devastating effect it would have on students.

Trustee Bleich thanked the student speakers for their heartfelt presentations. He noted that the Board did not ever wish to raise fees because the CSU is the gateway to a better life for so many in the state. He further said that the choices that the Board has to make are between bad choices and worse choices because of the economic reality that is facing the state.

RESOLVED, By the Board of Trustees of the California State University, that beginning with the fall term, 2009, a Graduate Business Professional Fee shall be assessed to students for coursework required in state-supported professional master's of business degree programs that are subject to accreditation by the Association to Advance Collegiate Schools of Business International (AACSB International). This fee shall be in addition to the State University Fee and any campus-based fees, and shall be assessed in the amount of \$210 per semester unit or \$140 per quarter unit. The Graduate Business Professional Fee shall apply to required courses in the following degree programs: Master of Business

Administration (M.B.A.); and Master of Science (M.S.) programs in Accountancy, Business Administration, Health Care Management, Business and Technology, Information Systems, and Taxation; and be it further

RESOLVED, that presidents are directed to set aside a minimum of 25% and not more than 33% of the Graduate Business Professional Fee revenue for need-based financial aid, with such funds to be used first to meet the demonstrated financial need of students in campus professional graduate degree programs in business; and that any part of the revenue that is not awarded to professional business master's degree program students be made available to meet demonstrated financial need of any other undergraduate or graduate students on the campus; and be it further

RESOLVED, that the Board of Trustees expects that, with this additional revenue made available to campuses, professional master's degree programs in business will show growth in enrollments consistent with campus strategic plans; enrollment diversity that includes improved representation of persons of modest financial means, and of persons from currently underrepresented groups, and a more balanced gender representation; support for students at the completion of their programs through such means as internships and placement assistance; improvements in faculty recruitment and retention success; and for programs that seek it, success in maintaining accredited status with the Association to Advance Collegiate Schools of Business International; and be it further

RESOLVED, that upon request of a campus president, the Chancellor is authorized to approve the assessment of a Graduate Business Professional Fee upon students enrolled in other newly-developed state-supported professional master's degrees in business that are subject to accreditation by the Association to Advance Collegiate Schools of Business International; and be it further

RESOLVED, that the Chancellor provide the Board of Trustees an accountability report in the 2011-12 fiscal year that is responsive to these Board expectations.

Committee on Campus Planning, Buildings and Grounds

Trustee Linscheid reported the committee heard one information item, Status Report on the 2009-2010 State Funded Capital Outlay Program and Suspended State Funded Design and Construction Projects and four action items as follow:

Draft State and Non-State Funded Five-Year Capital Improvement Program 2010-2011 through 2014-2015 (RCPBG 05-09-09)

Trustee Linscheid moved the item.

The Board of Trustees approved the following resolution:

RESOLVED, By the Board of Trustees of the California State University, that:

1. The Draft State and Non-State Funded Five-Year Capital Improvement Program 2010-2011 through 2014-2015 is approved.
2. The Chancellor or his designee is requested to explore all reasonable funding methods available and communicate to the Governor and the Legislature the need to provide funds to develop the facilities necessary to deliver quality educational programs to serve all eligible students.
3. The Chancellor or his designee is directed to return to the Board of Trustees for approval of the *final* State and Non-state Funded Five-Year Capital Improvement Program 2010-2011 through 2014-2015, including the 2010-2011 action-year request.

Certify the Final Environmental Impact Report and Approve the Master Plan and Enrollment Ceiling for California State University, Monterey Bay (RCPBG 05-09-11)

Trustee Linscheid moved the item.

The Board of Trustees approved the following resolution:

RESOLVED, by the Board of Trustees of the California State University, that:

1. The Final EIR for the California State University, Monterey Bay (CSUMB) 2007 Campus Master Plan, including the Addendum and Second Addendum (collectively FEIR), has been prepared to address the potential significant environmental impacts, mitigation measures, project alternatives, comments and responses to comments associated with the proposed 2007 Campus Master Plan dated May 2009, pursuant to the requirements of the California Environmental Quality Act, the CEQA Guidelines, and CSU CEQA procedures.
2. The Final EIR addresses the proposed on-campus traditional enrollment of 8,500 FTE, the non-traditional 3,500 FTE enrollment, the physical master plan, and all discretionary actions related to the project, including near term construction projects, as identified in Part II of the Recirculated Draft EIR.
3. This resolution is adopted pursuant to the requirements of Section 21081 of the Public Resources Code and Section 15091 of Title 14 of the California Code of Regulations (CEQA Guidelines), which require that the Board of Trustees make findings prior to the approval of a project along with a statement of facts supporting each finding.
4. This Board hereby adopts the Findings of Fact and related mitigation measures identified in the Mitigation Monitoring and Reporting Program for Agenda Item 5 of the May 12-13, 2009 meeting of the Board of Trustees' Committee on Campus Planning, Buildings and Grounds, that identifies

specific impacts of the proposed project and related mitigation measures, which are hereby incorporated by reference.

5. The Board has adopted Findings of Fact that include specific Overriding Considerations that outweigh certain remaining unavoidable significant impacts to water supply infrastructure and traffic/circulation.
6. The Final EIR has identified potentially significant and unavoidable impacts that may result from project implementation. However, the Board of Trustees, by adopting the Findings of Fact, finds that the inclusion of certain mitigation measures as part of the project approval will reduce most, but not all, of those effects to less-than-significant levels. Those impacts, which are not reduced to less-than-significant levels, are identified and overridden due to specific project benefits.
7. Prior to the certification of the FEIR, the Board of Trustees has reviewed and considered the above-mentioned FEIR, and finds that the FEIR reflects the independent judgment of the Board of Trustees. The Board hereby certifies the FEIR for the proposed project as complete and adequate in that the FEIR addresses all significant environmental impacts of the proposed project and fully complies with the requirements of CEQA and the CEQA Guidelines. For the purposes of CEQA and the CEQA Guidelines, the administrative record of proceedings for the project is comprised of the following:
 - a. The Draft EIR for the CSUMB 2007 Campus Master Plan;
 - b. The Recirculated Draft EIR for the CSUMB 2007 Master Plan;
 - c. The Final EIR, including comments received on the Draft EIR and Recirculated Draft EIR, and responses to comments;
 - d. The Addendum and Second Addendum to the Final EIR;
 - e. The proceedings before the Board of Trustees relating to the subject project, including testimony and documentary evidence introduced at such proceedings; and
 - f. All attachments, documents incorporated, and references made in the documents as specified in items (a) through (e) above.
8. It is necessary, consistent with the California Supreme Court decision in *City of Marina*, for CSU to pursue mitigation funding from the Legislature to meet its CEQA fair share mitigation obligations.
 - a. The Chancellor is therefore directed to request from the Governor and the Legislature the amount of \$2,326,795 to fund the "deficit period" fair share cost determination in the CSU 2009/2010 Capital Outlay Budget request for Off-Site Mitigation.

- b. The Chancellor is therefore directed to request from the Governor and the Legislature the amount of \$1,541,320. This amount includes \$1.35 million for the Regional Urban Water Augmentation Project, \$47,800 for the Habitat Conservation Plan, and \$143,520 for related annual maintenance for 30 years.
 - c. In light of limited state funding and uncertainties over the availability of future state funding for off-site mitigation, the University is directed to take all measures to ensure that the campus trip counts do not exceed the mitigation threshold of 4,361 additional trips. The University will prepare annual reports on the increase in average daily trips generated by the campus. Based on this data, the Chancellor will report on a timely basis to the Trustees the campus trip counts. To the extent the University trips draw near the threshold, the Board shall take measures to freeze trip generations below the threshold including but not limited to requiring the University to decrease impacts by increasing transportation demand management measures or, if that cannot be achieved, limiting development.
9. In the event the request for mitigation funds is approved in full by the Governor and the Legislature, the Chancellor is directed to proceed with implementation of the 2007 Campus Master Plan dated May 2009 for California State University, Monterey Bay. Should the request for funds only be partially approved, the Chancellor is directed to proceed with implementation of the project, funding identified mitigation measures to the extent of the available funds. In the event the request for state capital funds is not approved, the Chancellor is directed to proceed with implementation of the project consistent with resolution number 12 below.
10. Because this Board cannot guarantee that the request to the Legislature for the necessary mitigation funding will be approved, or that local agencies will fund and implement the measures that are their responsibility, and because FORA and its member agencies will not provide fair share funding towards mitigation for the on-campus roadways, this Board finds that the impacts whose funding is uncertain and/or unavailable remain significant and unavoidable; and that they are necessarily outweighed by the Statement of Overriding Considerations adopted by this Board.
11. The Board hereby certifies the Final EIR for the California State University, Monterey Bay 2007 Campus Master Plan dated May 2009 as complete and in compliance with CEQA.

12. The mitigation measures identified in the Mitigation Monitoring and Reporting Program are hereby adopted and shall be monitored and reported in accordance with the Mitigation Monitoring and Reporting Program for Agenda Item 5 of the May 12-13, 2009 meeting of the Board of Trustees' Committee on Campus Planning, Buildings and Grounds, which meets the requirements of CEQA (Pub. Resources Code, §21081.6).
13. The project will benefit California State University.
14. The above information is on file with The California State University, Office of the Chancellor, Capital Planning, Design and Construction, 401 Golden Shore, Long Beach, California 90802-4210, and at California State University, Monterey Bay, Office of Campus Planning and Development, 100 Campus Center, Building 84A, Seaside, California 93955.
15. The California State University, Monterey Bay, 2007 Campus Master Plan dated May 2009 is hereby approved, including the master plan full-time equivalent students (FTE) enrollment of 12,000, providing for 8,500 traditional on-campus FTE and 3,500 non-traditional FTE.
16. The four designated near term projects identified and described in the FEIR are: (1) Academic Building II and (2) Academic Building III (each approximately 55,000 to 70,000 GSF); (3) Student Housing III (600 beds) and (4) North Campus Housing Project, Phase I (492 units). The Board has determined the near term projects are fully analyzed at the project level in the Final EIR for purposes of compliance with CEQA and hereby approves such projects for implementation and construction.
17. The Chancellor, or his designee, is requested under the Delegation of Authority by the Board of Trustees to file the Notice of Determination for the project.
