AGENDA

COMMITTEE ON AUDIT

Meeting: 8:30 a.m., Wednesday, January 29, 2014 Glenn S. Dumke Auditorium

> Lupe C. Garcia, Chair Steven M. Glazer, Vice Chair Rebecca D. Eisen William Hauck Hugo N. Morales

Consent Items

Approval of Minutes of Meeting of November 5, 2013

Discussion Items

- 1. Audit Committee Charter, *Action*
- 2. Office of the University Auditor Charter, *Action*
- 3. Status Report on Current and Follow-Up Internal Audit Assignments, *Information*
- 4. Assignment of Functions to be Reviewed by the Office of the University Auditor For Calendar Year 2014, *Action* (corrected)
- 5. Report of the Systemwide Audit in Accordance With Generally Accepted Accounting Principles Including the Report to Management, *Information*
- 6. Single Audit Reports of Federal Funds, *Information*
- 7. National Collegiate Athletic Association Agreed-Upon Procedures, *Information*

MINUTES OF THE MEETING OF COMMITTEE ON AUDIT

Trustees of The California State University
Office of the Chancellor
Glenn S. Dumke Conference Center
401 Golden Shore
Long Beach, California

November 5, 2013

Members Present

Lupe C. Garcia, Chair Rebecca D. Eisen Steven M. Glazer A. Robert Linscheid, Chair of the Board Timothy P. White, Chancellor

Chair Garcia called the meeting to order.

Approval of Minutes

The minutes of the meeting of September 25, 2013, were approved as submitted.

Status Report on Current and Follow-up Internal Audit Assignments

Mr. Larry Mandel, university auditor, presented the Status Report on Current and Follow-up Internal Audit Assignments, Agenda Item 1 of the November 5-6, 2013, Board of Trustees agenda.

Mr. Mandel reminded everyone that updates to the status report are displayed in green numerals and indicate progress toward or completion of recommendations since the distribution of the agenda. He reported that the campuses are continuing to make good progress in completing the recommendations within a reasonable time period and noted that several long-outstanding recommendations had recently been completed. He indicated that as per discussions with management, long-outstanding recommendations pertaining to Data Center Operations and International Programs at California State University, Chico and the systemwide recommendations pertaining to Data Center Operations, Facilities Management, and Police Services would be completed by the January board meeting. In addition, Mr. Mandel stated that the 2013 audit assignments are on track to be completed by the January board meeting.

Chair Garcia thanked the campuses and chancellor's office management for their continued effort in making the commitment to ensure that outstanding recommendations are completed in a timely manner. She indicated that to the extent possible, recommendations should be implemented within six months.

Audit Committee Charter

Mr. Mandel presented the updated Audit Committee Charter to the committee for approval. He explained that all state agencies with an internal audit function are required to follow the principles and guidelines of *The Institute of Internal Auditors*. He stated that the modifications mostly pertain to recognizing the importance of information systems controls and security; parity between the various areas on the charter itself; the approval of all major changes to the audit plan; and the assurance that the university auditor has the resources to help fulfill its fiduciary responsibilities to the board.

Trustee Faigin asked for clarification on the following statement included in the charter: "The Audit Committee shall concur in the appointment or dismissal of the University Auditor." His interpretation is that the statement is a directive whereby the committee has no authority in making decisions regarding the appointment or dismissal of the university auditor.

Mr. Mandel responded that the Committee on Audit does have the authority to appoint or dismiss the university auditor and that the board does make the appointment. He added that the statement is incorrectly written and that the language could be amended to reflect this.

Trustee Glazer asked whether the language under Composition and Meetings regarding the statement that one member of the audit committee <u>must</u> have accounting or financial expertise could also be amended or whether it is a requirement under law. He indicated that the committee currently does not have a trustee with financial background and believes it would put a restriction on the trustees.

Mr. Mandel explained that the language in the Audit Committee Charter was adopted by the board in 2005 and has not been changed since that time, but that it could be amended.

Chair Garcia pointed out that Trustee William Hauck is currently a member of the audit committee and has the financial background. She commented that she would like to be sure that the committee is comfortable with not having someone with a financial background. She understands the concern of it being restrictive but it is her opinion that there is value to having a committee member with a financial background. She then asked Mr. Mandel for clarification as to whether there is a requirement from a best practices position.

Mr. Mandel stated that the language was taken from Sarbanes Oxley, which is a requirement in the outside world. He added that based on a review of Sarbanes Oxley by the National Association of Colleges and University Business Officers (NACUBO), it was advised that this language be applied to colleges and universities as part of audit committee charters.

Trustee Glazer asked whether the language pertaining to the requirement of financial background could be changed to read, "it is strongly recommended," instead of "must." He pointed out that it is the governor who selects the trustees, but added that the committee could certainly encourage the governor to select a trustee with this type of expertise.

Chair Garcia commented that she is comfortable with the wording change to "strongly recommend" and stated that the committee could offer encouragement to consider financial background in the selection of future trustees, in order to ensure that best practices are met.

Mr. Mandel then asked whether the sentence should be amended with the word "should," instead of "must."

Trustee Faigin stated that he would defer to counsel but stated his belief that "should" and "must" are very similar in meaning, and the point of making the change is to give the committee some discretion. He offered his preference for either "strongly recommend" or "prefer."

Mr. Andrew Jones, interim general counsel, responded that "must" is more akin to "shall" in the legal world and "should" is a little more permissive, but that "strongly recommend" is acceptable.

Chair Garcia appreciated all the comments and stated that since there is no legal requirement, she would suggest that the word be amended to "should," as "must" is definitely more affirmative.

Trustee Glazer then inquired as to the proposed amended language pertaining to the appointment and dismissal of the university auditor that was discussed earlier.

Chair Garcia suggested that the reference to "and concur" be stricken from the Audit Committee Charter and changed to "...and appoint or dismiss the University Auditor."

Trustee Glazer called for a motion to approve the resolution as proposed with the following amendments: (1) "...at least one member must have accounting or financial expertise" changed to "...at least one member should have accounting or financial expertise" and (2) "...and concur in the appointment or dismissal of the University Auditor" changed to "...appoint and dismiss the University Auditor." A motion was then made, and the resolution was passed unanimously to approve the amended version of the Audit Committee Charter.

Office of the University Auditor Charter

Mr. Mandel presented the updated Office of the University Auditor Charter to the committee for approval. The charter was last updated in 2005.

Mr. Mandel stated that the most significant change to the charter incorporates the addition of advisory services and proposes that the department name be changed to the Office of Audit and Advisory Services to recognize this addition. He noted that the audit plan now includes consulting services at the request of campus management, as a proactive approach. He also indicated that the Scope of Work has been updated to be in alignment with the preferred practices of *The Institute of Internal Auditors* and to reflect current procedures and clarification on the university auditor's responsibility and authority in determining whether the University's network of risk management, control, and governance processes is adequate and functioning

effectively. The updated charter also proposed a change regarding the evaluation of the university auditor.

Chair Garcia stated her opinion that it is extremely valuable that the internal auditor's office provides these proactive consulting services to the campuses. She agreed that it is important work and should be reflected in terms of their overall scope of responsibility, definitely as a best practice when it comes to providing risk management to an organization of this size. In reference to the modification regarding the evaluation of the university auditor and based on discussions with Chancellor White, she proposed to the committee that it read as, "The Board of Trustees through the audit committee chair evaluates the university auditor with input from the chancellor."

Trustee Glazer asked Chair Garcia if she was suggesting that the evaluation of the university auditor would not be a function of the committee as a whole but instead would be conducted solely by the audit committee chair.

Chair Garcia clarified that the evaluation of the university auditor would be through the Committee on Audit as represented by the chair. She clarified that the evaluation process is not necessarily every member of the committee sitting down to conduct the evaluation. She added that it is more of a logistical clarification, but she is also fine with changing it to read, "...through the audit committee through its chair..."

Trustee Glazer asked whether the language pertaining to the dismissal of the university auditor would be changed to be in alignment with the proposed language in the Audit Committee Charter.

Chair Garcia responded that the language pertaining to the dismissal of the university auditor would be consistent within the University Auditor Charter and the Audit Committee Charter.

Trustee Glazer asked for another review of the proposed changes to the University Auditor Charter, even though it would be brought back to the full board tomorrow.

Mr. Mandel stated that it would not be brought back to the full board, as the audit committee takes action on behalf of the board.

Trustee Glazer asked whether the committee could meet prior to tomorrow's meeting with updated language.

Chancellor White suggested that instead of the entire committee meeting to update the proposed language, perhaps another member either from interest or expertise could participate and bring it back to the board tomorrow. He indicated that we want to be real clear in providing guidance so that several years from now when someone reads it, they will understand what we are trying to accomplish.

Chair Garcia agreed.

Trustee Glazer also concurred with the chancellor. He stated his belief that not all of the trustees understand fully the special role that the auditor plays in the system and with the board. He added that he was unaware that the audit committee acts on behalf of the board and believes there is a need to better understand the role of the university auditor.

Mr. Mandel deferred to Mr. Jones about bringing the agenda items back to the full board the next day.

Mr. Jones stated that the agenda items can be brought back to the full board, but indicated that this is an audit committee matter. He further stated his belief that there is enough latitude with all the disclaimers in the public notice to do so.

Intent to Reissue the Request for Proposal for External Auditor Contract

Mr. George V. Ashkar, assistant vice chancellor and controller, stated that under the direction of the Committee on Audit, a new Request for Proposal (RFP) will be issued for the purpose of soliciting proposals from qualified independent audit firms with the intent of establishing a CSU master service contract for the performance of a variety of financial and other audits, beginning with the 2014-2015 fiscal year audit. He then requested the board's approval to extend the existing contract with KPMG for one additional year to perform the 2013-2014 fiscal year audit, given that the RFP process will not be concluded in sufficient time to allow for proper planning and preparation.

Chair Garcia called for a motion to approve the committee resolution (RAUD 11-13-02). A motion was then made, and the resolution was passed unanimously to approve the extension of the existing contract with KPMG for one additional year to perform the 2013-2014 fiscal year audit.

Chair Linscheid then recessed the Committee on Audit until the next day to allow for further discussion on the proposed changes to agenda items 2 and 3. He stated that it would also be important to further discuss how the audit committee is authorized to act on its own.

Mr. Jones responded that he could provide a full explanation when the committee reconvenes tomorrow.

Chair Linscheid also requested a briefing on the relationship between the University and the auxiliary organizations to help with the understanding for the new trustees.

Mr. Jones responded that it would be a very big discussion, but that he could provide that information.

Chair Linscheid stated his belief that it is important to understand the voluminous task that is involved with regard to the auxiliary organizations.

Chair Garcia reconvened the Committee on Audit on November 6, 2013. She reminded the trustees that yesterday, the committee deferred action on agenda item 3 regarding the Office of the University Auditor Charter. She stated that when that item was discussed yesterday, members of the committee proposed various amendments for the purpose of aligning the role and reporting relationship of the university auditor with the committee's vision for that office. She further stated that she had since been informed by General Counsel that agenda item 3, with the proposed amendments, conflicts with the Rules Governing the Board of Trustees. General Counsel suggested that this item be withdrawn and brought back to the January board meeting, along with the corresponding proposed changes to the board rules so that these key documents would be consistent.

She further reminded the trustees that at yesterday's meeting, the committee voted to approve an amended version of agenda item 2 regarding the Audit Committee Charter. She further stated that she had been informed by General Counsel that the charter, as amended, conflicts with the Rules Governing the Board of Trustees. General Counsel suggested that the committee vote to rescind yesterday's approval of the Audit Committee Charter so that the item can be brought back to the January board meeting and considered at that time along with proposed amendments to the board rules so that the charter and the rules can be consistent and aligned with the direction desired by the board.

Chair Garcia called for a motion to withdraw agenda item 3 and to rescind the approval of agenda item 2 that was passed yesterday.

Trustee Glazer asked for clarification as to whether it should be a motion to reconsider, as we are rescinding action taken yesterday. Then if it is on the affirmative side to reconsider and then the matter is reconsidered, appropriate action could be taken.

Mr. Jones responded that it is procedurally correct either way.

Trustee Glazer stated that since he was on the affirmative side in voting for it, he would be happy to make the motion to reconsider. A motion was then made and passed unanimously to reconsider agenda items 2 and 3.

Chair Garcia then called for a motion to table the committee resolutions regarding the Audit Committee Charter and the Office of the University Auditor Charter until the January 2014 board meeting. A motion was then made and passed unanimously.

The meeting adjourned.

COMMITTEE ON AUDIT

Audit Committee Charter

Presentation By

Larry Mandel University Auditor

Summary

In an effort to align the Board of Trustees Committee on Audit with the best practices taking place within governing boards, an Audit Committee Charter was adopted in January 2005. The *International Professional Practices Framework (IPPF)* promulgated by the Institute of Internal Auditors recognizes that the internal audit activity must be organizationally independent to carry out internal audit responsibilities in an unbiased manner. The IPPF states that organizational independence is effectively achieved when the chief audit executive reports functionally to the board and defines such reporting in its Practice Advisory 1110-1. In an effort to keep the Audit Committee Charter current and aligned with best practices an updated Audit Committee Charter is proposed.

Aud Agenda Item 1 January 28-29, 2014 Page 2 of 3

THE CALIFORNIA STATE UNIVERSITY

AUDIT COMMITTEE CHARTER

RESOLVED, By the Board of Trustees of the California State University, that the following <u>updated</u> Charter for the Committee on Audit is adopted.

Purpose

The purpose of the Committee on Audit is to assist the Trustees in fulfilling its oversight responsibilities for the financial reporting process, system of internal control over financial reporting, external and internal audit processes, and the university's process for monitoring compliance with laws and regulations.

Composition and Meetings

The Committee on Audit will consist of at least five members as determined by the Trustees through the Committee on Committees. Each committee member will be independent. Members will have access to financial expertise either collectively among committee members of from a financial expert appointed to advise them—and at least one member must have accounting or financial expertise. Regular meetings of the Committee on Audit will be held on the same dates and in the same locations as regular meetings of the Trustees. Other meetings may be called as provided for in the Rules of Procedure—Governing the Board of Trustees.

Responsibility and Authority

The Committee on Audit functions under the Rules <u>of Procedure</u> Governing the Board of Trustees and is responsible for the overall audit function within the California State University. In this context, the Committee on Audit shall:

- 1. Approve the selection or discharge of the external auditor, review the external auditors' planned audit scope and approach, approve any non-audit services provided by the external auditor, and resolve disagreements between management and the external auditor regarding financial reporting.
- 2. Review the results of the <u>annual financial</u> audit with the external auditor and management, including any difficulties encountered, and monitor the completion of recommendations.
- 3. Monitor the university's system of internal controls, including computerized information system controls and security; and the adequacy of financial, accounting and operational

Aud Agenda Item 1 January 28-29, 2014 Page 3 of 3

policies and practices related to financial reporting-; and the process for monitoring compliance with laws and regulations.

- 4. Review the annual internal audit plan, discuss the extent to which it addresses high-risk areas with the University Auditor and management, and approve the final audit plan and all major changes to the plan.
- 5. Review internal audit reports and responses, and monitor the completion of recommendations.
- 6. Approve the internal audit mission statement, charter, and other governance documents related to internal audit activities in the University.
- 7. Assure the effectiveness of the internal audit function, including its organizational structure, the adequacy of its staffing and budget, and performance relative to its annual plan; the existence of and ensure there are no unjustified restrictions or limitations; and concurrence in the appointment or dismissal of the University Auditor.
- 8. Call for the review of the University Auditor, not less than once every three years, and provide input to the Board of Trustees on the University Auditor's performance. At its discretion, the Committee may retain outside consultants to assist with the review.
- 7.9.Make recommendations to the Board of Trustees for the appointment, dismissal and compensation of the University Auditor.

The following resolution is recommended for approval:

RESOLVED, By the Committee on Audit of the California State University Board of Trustees that the updated Charter for the Committee on Audit is adopted (subject to non-substantive changes), as detailed in Agenda Item 1 of the Committee on Audit at the January 28-29, 2014 meeting, be approved.

COMMITTEE ON AUDIT

Office of the University Auditor Charter

Presentation By

Larry Mandel University Auditor

Summary

The Office of the University Auditor currently operates under a University Auditor Charter that was last updated in March 2005. The *International Professional Practices Framework (IPPF)* promulgated by the Institute of Internal Auditors requires that the purpose, authority, and responsibility of the internal audit activity be formally defined in an internal audit charter and that the chief audit executive periodically review the internal audit charter and present it to senior management and the board for approval. The IPPF is considered the auditing standard for agency audit departments within the state of California. In an effort to keep the University Auditor Charter current and aligned with best practices taking place within the audit industry, both within and outside higher education, an updated University Auditor Charter is proposed. The Charter has also been updated to bring it into alignment with the BOT—Rules—of ProcedureGoverning the Board of Trustees. The proposed update also incorporates the addition of advisory services and proposes that the department name be changed to the Office of Audit and Advisory Services to recognize this addition.

Aud Agenda Item 2 January 28-29, 2014 Page 2 of 8

THE CALIFORNIA STATE UNIVERSITY

OFFICE OF THE UNIVERSITY AUDITOR AUDIT AND ADVISORY SERVICES CHARTER

RESOLVED, By the Board of Trustees of the California State University, that the following updated Office of Audit and Advisory Services the University Auditor Charter is adopted.

Establishment

Education Code Section 89045, enacted by Chapter 1406 of the Statutes of 1969, provides for the establishment of an internal auditing function reporting directly to the Trustees of the California State University.

Nature

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve operations.

Mission Statement

The mission of the Office of the University Auditor Audit and Advisory Services is to assist university management and the Trustees in the effective discharge of their fiduciary and administrative responsibilities by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. _This assistance is provided through a series of independent and objective operational and compliance audits, internal control reviews, investigations—services, and consultingadvisory services designed to add value and improve operations.

Scope of Work

The Office of the University Auditor Audit and Advisory Services provides university management and the Trustees with analyses, appraisals, recommendations, counsel, and information concerning the activities reviewed. Major objectives include evaluating providing ongoing assurance that critical risks exposures relating to governance, operations, and information systems; monitoring are being mitigated to acceptable levels and the California State University is operating efficiently and effectively the effectiveness and efficiency of controls; and adding value by contributing to the improvement of governance, risk management, operations and control processes, and by promoting continuous improvement; and effective control at reasonable costsenhancing awareness and understanding of risk and control; and promoting appropriate ethics and values.

The scope of <u>internal auditingwork includesof</u> the Office of Audit and Advisory Services is to determine whether the university's network of risk management, control, and governance processes, as designed and represented by management, is adequate and functioning effectively to ensure:

- Risk management processes are effective and significant risks are appropriately identified, assessed, and managed.
- The potential for the occurrence of fraud is evaluated and fraud risk is managed.
- Reviewing the reliability and integrity of fFinancial, and operating operational, and managerial information is and the means used to identify, measure, classify, and report such information accurate, reliable, and timely.
- Actions and decisions are in Reviewing the systems established to ensure compliance with those policies, plans, procedures, applicable laws, and regulations, policies, procedures, contracts, and standardswhich could have a significant impact on operations and reports, and determining whether the university is in compliance.
- Reviewing the means of safeguarding assets and verifying the existence of such assets, as appropriate Resources are acquired economically, used efficiently, accounted for accurately, and protected adequately.
- <u>Appraising the economy and efficiency with which resources are employed Programs, plans, and objectives support and align with the university's mission and are achieved.</u>
- <u>Information technology governance and systems support achievement of the university's</u> strategic goals and security practices adequately protect information assets.
- Reviewing operations and programs to ascertain whether results are consistent with established objectives and goals and whether the operations or programs are being carried out as plannedQuality and continuous improvement are fostered in the university's risk management and control processes.
- Reviewing tThe governance process with executive management to ensure effective organizational performance management accountability and promotion of promotes appropriate ethics and values and ensures effective organizational performance management and accountability.

Aud Agenda Item 2 January 28-29, 2014 Page 4 of 8

> Communication of risk and control information to appropriate areas of the organization, and coordination of activities of and communication of information among various governance groups occur as needed.

Responsibility and Authority

The Office of the University Auditor Audit and Advisory Services functions under the policies established by the Trustees of the California State University and university management. Additionally, the Office of the University Auditor Audit and Advisory Services serves the university in a manner that is consistent with the International Standards for the Professional Practices of Internal Auditing Framework and the Code of Ethics as promulgated by the Institute of Internal Auditors. In this context, the University Auditor is responsible for:

- All administrative duties and requirements pertaining to the operation of the Office of the University Auditor Audit and Advisory Services, including the establishment of policies for auditing and advisory services and direction of the Office of the University Auditor's office's technical and administrative functions, and represents the California State University system in all relationships with external audit agencies.
- Developing and executing a comprehensive <u>risk-based</u> audit program for the evaluation of management controls provided over all university and auxiliary organization activities, although the Board of Trustees reserves the right to assign the Office of the University Auditor Audit and Advisory Services to review any area within its jurisdiction.
- Performing advisory services at the request of management to identify solutions for business issues, offer opportunities to improve the efficiency and effectiveness of operating areas, and assist with special requests, while ensuring the consideration of related internal control issues.
- Examining the effectiveness of all levels of management in their stewardship of university and auxiliary organization resources and their compliance with established policies and procedures.
- Recommending improvement of management controls designed to safeguard university and auxiliary organization resources and to ensure compliance with government laws and regulations.
- Reviewing procedures and records for their adequacy to accomplish intended objectives, and appraising policies and plans relating to the activity or function under audit-review.

- Conducting investigations of alleged incidences of fraud, waste and abuse, and improper governmental activities.
- Authorizing the publication of reports on the results of accepted audit examinations, including recommendations for improvement.
- Appraising the adequacy of the action taken by operating management to correct reported deficient conditions; accepting adequate corrective action.
- Conducting special examinations and providing consulting services at the request of management.

The Office of the University Auditor Audit and Advisory Services is free from interference in determining the scope of auditing, performing work, and communicating results; and has full, free and unrestricted access to all records (manual and electronic), property, and personnel of the university and recognized auxiliary organizations. The Office of the University Auditor Audit and Advisory Services is free to review and appraise all policies, plans, and procedures.

Internal auditing <u>and advising</u> is a staff function and, as such, has no authority to make operating decisions, to direct anyone in operations, or to take action or implement any of its recommendations. _These tasks are the responsibility of the university and auxiliary management.

Independence

To permit the rendering of impartial and unbiased judgments essential to the proper conduct of audits, internal auditors will be independent of the activities they audit.

Policies and Procedures

The following general operating statement for direction of all activities of the Office of the University Auditor Audit and Advisory Services is adopted consistent with the provisions of Government Code Sections 1236 and 13400 et seq., Education Code Sections 89045 and 89761.

Audit Planning, Direction, and Supervision

Oversight of the audit function provided by the Office of the University Auditor Audit and Advisory Services, including the priority of work assignments, shall be the responsibility of the Committee on Audit, which shall report on such matters to the Board of Trustees.

Aud Agenda Item 2 January 28-29, 2014 Page 6 of 8

- An audit plan will be prepared annually by the University Auditor and submitted to the Executive Audit Committee for review. Composition of the membership of the Executive Audit Committee shall be determined by the Chancellor. After review by the Executive Audit Committee, the audit plan shall be submitted for approval by the Board through the Committee on Audit. Audit topics will be selected based upon: a detailed risk assessment that is performed annually; legislatively mandated reviews noted in Education Code §89045 and Government Code §13400 et seq.; and in the action taken by the Trustees' Committee on Audit in agenda item 2 at the January 1999 meeting requiring the review of auxiliary organizations (currently reflected in the Chancellor's Executive Order 698).
- Unscheduled audits/investigations of the Office of the Chancellor or of any campus can be requested by the Trustees or the Chancellor with the approval of the Chair of the Committee on Audit. _Unscheduled audits/investigations of a campus can also be requested by the campus president but must be approved by the Chancellor and the Chair of the Committee on Audit.
- The University Auditor will be responsible for the sufficiency of audit resources; assignment of fieldwork to staff and contracted agencies; and the timely completion of, and reporting on, audits.
- Communication liaison and consultation with the Committee on Audit will be maintained by the University Auditor, through the Chair of the Committee.

Audit Reporting, Follow-Up Procedures, and Program Accountability

- Copies of all audit reports will be made available electronically on the Office of the University Auditor's Audit and Advisory Services' website. Notification letters providing a link to the audit reports are sent to the Board of Trustees, State Auditor, Committee on Higher Education, Joint Legislative Audit Committee, Joint Legislative Budget Committee, Department of Finance, and Legislative Analyst's Office. In addition, each of the campus presidents and the CSU Advocacy State Relations department receive emails with a link indicating that reports have been posted to the OUA-Office of Audit and Advisory Services' website.
- The President or Chancellor, or their designees, will communicate to the University Auditor in writing the progress made towards implementing the plan of corrective action noted in the response to the audit. The University Auditor, or designee, will review the responsiveness of the corrective action taken and determine whether additional action may be required. In certain instances, it may be necessary to revisit the campus to ascertain whether the corrective action taken is achieving the desired results. All findings

will be tracked until corrective action is taken. _Reports of follow-up activity will be made at each meeting of the Committee on Audit.

- At each meeting of the Committee on Audit, the University Auditor will report the assignment workload showing the status of audits in progress, workload backlog, and disposition taken on completed audit assignments.
- An external assessment, such as a quality assurance review, will be conducted at least once every five years by a qualified, independent reviewer or review team from outside the California State University. The independent reviewer or review team must be approved by the Chair of the Committee on Audit. Results of the review will be communicated to the Board through the Committee on Audit.

Coordination of Work

- The University Auditor is the point of contact for all entrance and exit conferences held with the Office of the Chancellor by external audit agencies.
- The University Auditor will coordinate all system responses to audits performed by external audit agencies.
- The University Auditor is the point of contact for questions concerning the reporting of fiscal improprieties to state agencies (currently reflected in the Chancellor's Executive Order 813).
- The University Auditor will coordinate internal audit effort with the external auditors to reduce the potential for duplication of audit effort.

Budget, Personnel and Operational Procedures for the Office of the University Auditor Audit and Advisory Services

- For purposes of general administration, staff personnel, budget and space, there shall beexist an administrative relationship between the University Auditor and to the Chancellor.
- Except for certain personnel actions related to the position of University Auditor noted below, the Office of the University Auditor Audit and Advisory Services is subject to all the rules and procedures established by the Chancellor's Office of the Chancellor.

Aud Agenda Item 2 January 28-29, 2014 Page 8 of 8

- The Board of Trustees, upon recommendation by through the Committee on Audit and input from the Chancellor, and with input from the chancellor, appointsemploys, dismisses, and sets the compensationsalary for the position of University Auditor.
- The Board of Trustees, upon recommendation by the Chancellorthrough the Committee on Audit, and with input from the Committee on Audit and the -Cehancellor, evaluates the University Auditor not less than once every three years. An independent consultant may be appointed by the Committee on Audit will prepare triennial performance appraisals of the University Auditorto help with the evaluation. The consultant will solicit the opinions of Trustees, and system and campus personnel necessary to evaluate performance. The Committee on Audit will discuss performance expectations and the results of the appraisal with the University Auditor in closed session.
- All matters concerning the employment, dismissal, and salary for the position of University Auditor will be initiated by the Chancellor and brought to the Board, through the Committee on Audit for approval.

The following resolution is recommended for approval:

RESOLVED, By the Committee on Audit of the California State University Board of Trustees that the updated Office of Audit and Advisory Services Charter is adopted (subject to non-substantive changes), as detailed in Agenda Item <u>32</u> of the Committee on Audit at the <u>November 5-6, 2013-January 28-29, 2014</u> meeting, be approved.

COMMITTEE ON AUDIT

Status Report on Current and Follow-up Internal Audit Assignments

Presentation By

Larry Mandel University Auditor

Summary

This item includes both a status report on the 2013 audit plan and follow-up on past assignments. For the 2013 year, assignments were made to conduct reviews of Auxiliary Organizations, high-risk areas (International Programs, Sensitive Data Security, Centers and Institutes, Hazardous Materials Management, Student Health Services, and Conflict of Interest), high profile area (Sponsored Programs – Post Awards), core financial area (Credit Cards), and Construction. In addition, follow-up on current/past assignments (Special Investigations, Auxiliary Organizations, Data Center Operations, Facilities Management, Identity Management, International Programs, Police Services, CSURMA, Credit Cards, Sensitive Data Security, Centers and Institutes, Hazardous Materials Management, and Sponsored Programs) was being conducted on approximately 35 prior campus/auxiliary reviews. Attachment A summarizes the reviews in tabular form. An up-to-date Attachment A will be distributed at the committee meeting.

Status Report on Current and Follow-up Internal Audit Assignments

Auxiliary Organizations

The initial audit plan indicated that approximately 305 staff weeks of activity (29.7 percent of the plan) would be devoted to auditing internal compliance/internal control at eight campuses/30 auxiliaries. Five campus/nineteen auxiliary reviews have been completed. Two campus/six auxiliaries are awaiting a response prior to finalization, and report writing is being completed for one campus/four auxiliaries.

Aud Agenda Item 3 January 28-29, 2014 Page 2 of 5

High-Risk Areas

International Programs

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of program approvals, fiscal administration and controls; risk management processes; curriculum and credit transfers; utilization of third-party providers; compliance with U.S. Department of State and other regulatory international travel requirements; and processes used to recruit international students, verify student credentials, and provide support on campus. Six campuses will be reviewed. Six reports have been completed.

Sensitive Data Security

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of policies and procedures for handling confidential information; communication and employee training; tracking and monitoring access to sensitive data; and retention practices of key records. Six campuses will be reviewed. Four reports have been completed, and two reports are awaiting a campus response prior to finalization.

Centers and Institutes

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of campus policies and procedures for establishing, operating, monitoring, reviewing, and discontinuing centers, institutes, and similar entities; fiscal administration and controls; faculty workload including the potential for conflicts of interest; policies and procedures for identifying and reporting allegations of misconduct in research and other related activities; and campus processes for reporting entity activities including the implementation status of campus policies and procedures to the CSU Chancellor's Office. Six campuses will be reviewed. Six reports have been completed.

Hazardous Materials Management

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of the systems and procedures for controlling the purchase, generation, storage, use and disposal of hazardous materials and wastes; employee training; emergency response plans; reporting requirements; and compliance with federal and state regulations. Six campuses will be reviewed. Four reports have been completed, while two are awaiting a campus response prior to finalization.

Aud Agenda Item 3 January 28-29, 2014 Page 3 of 5

Student Health Services

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of compliance with federal and state laws, Trustee policy, and CSU Chancellor's Office directives; establishment of a student health advisory committee; accreditation status; staffing, credentialing and re-credentialing procedures; safety and sanitation procedures, including staff training; budgeting procedures; fee authorization, cash receipt/disbursement controls and trust fund management; pharmacy operations, security and inventory controls; and the integrity and security of medical records. Six campuses will be reviewed. Four reports are awaiting a campus response prior to finalization, while report writing is being completed for two campuses.

Conflict of Interest

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of the process for identification of designated positions; monitoring, tracking and review of disclosures relating to conflicts of interest, such as research disclosures; faculty and CSU designated officials reporting; employee/vendor relationships; ethics training; and patent and technology transfer. Resource restrictions will not allow for an audit of Conflict of Interest during 2013; it will be reviewed as part of the 2014 audit plan.

High Profile Area

Sponsored Programs – Post Awards

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of contract/grant budgeting and financial planning; indirect cost administration including cost allocation; cost sharing/matching and transfer processes; effort-reporting, fiscal reporting, and progress reporting; approval of project expenditures; sub-recipient monitoring; and management and security of information systems. Six campuses will be reviewed. Two reports have been completed, while three reports are awaiting a campus response prior to finalization.

Aud Agenda Item 3 January 28-29, 2014 Page 4 of 5

Core Financial Area

Credit Cards

The initial audit plan indicated that approximately 43 staff weeks of activity (4.2 percent of the plan) would be devoted to a review of credit card administration; compliance with campus policies and procedures; approval to use credit cards; monitoring and review of credit card purchases; enforcement of sanctions for misuse; and processes to deactivate credit cards upon employee termination or transfer. Six campuses will be reviewed. Six reports have been completed.

Construction

The initial audit plan indicated that approximately 44 staff weeks of activity (4.3 percent of the plan) would be devoted to a review of design budgets and costs; the bid process; invoice processing and change orders; project management, architectural, and engineering services; contractor compliance; cost verification of major equipment and construction components; the closeout process and liquidated damages; and overall project accounting and reporting. Six projects will be reviewed. Three reports have been completed, while report writing is being completed for one campus. One review has been moved to 2014 to allow for the earlier completion of an advisory project.

Advisory Services

The initial audit plan indicated that approximately 171 staff weeks of activity (16.7 percent of the plan) would be devoted to partnering with management to identify solutions for business issues, offer opportunities to improve the efficiency and effectiveness of operating areas, and assist with special requests, while ensuring the consideration of related internal control issues. Reviews are ongoing.

Information Systems

The initial audit plan indicated that approximately 45 staff weeks of activity (4.4 percent of the plan) would be devoted to technology support for all high-risk and auxiliary audits. Reviews and training are ongoing.

Aud Agenda Item 3 January 28-29, 2014 Page 5 of 5

Investigations

The Office of the University Auditor is periodically called upon to provide investigative reviews, which are often the result of alleged defalcations or conflicts of interest. In addition, whistleblower investigations are being performed on an ongoing basis, both by referral from the State Auditor and directly from the CSU Chancellor's Office. Forty-three staff weeks have been set aside for this purpose, representing approximately 4.2 percent of the audit plan.

Committees

The Office of the University Auditor is periodically called upon to provide consultation to the campuses and/or to perform special audit requests made by the chancellor. Seven staff weeks have been set aside for this purpose, representing approximately 0.7 percent of the audit plan.

Special Projects

The Office of the University Auditor is periodically called upon to provide non-investigative support to the CSU Chancellor's Office/campuses. Fifty-five staff weeks have been set aside for this purpose, representing approximately 4.9 percent of the audit plan.

Follow-ups

The audit plan indicated that approximately 11 staff weeks of activity (1.1 percent of the plan) would be devoted to follow-up on prior audit recommendations. The Office of the University Auditor is currently tracking approximately 35 current/past assignments (Special Investigations, Auxiliary Organizations, Data Center Operations, Facilities Management, Identity Management, International Programs, Police Services, CSURMA, Credit Cards, Sensitive Data Security, Centers and Institutes, Hazardous Materials Management, and Sponsored Programs) to determine the appropriateness of the corrective action taken for each recommendation and whether additional action is required.

Annual Risk Assessment

The Office of the University Auditor annually conducts a risk assessment to determine the areas of highest risk to the system. Four staff weeks have been set aside for this purpose, representing approximately 0.4 percent of the audit plan.

COMMITTEE ON AUDIT

Assignment of Functions to Be Reviewed by the Office of the University Auditor for Calendar Year 2014

Presentation By

Larry Mandel University Auditor

Summary

At the first meeting of the new year, the Committee on Audit selects the audit assignments for the Office of the University Auditor. The following is an audit plan for calendar year 2014.

HIGH RISK AREAS

The Office of the University Auditor performed a risk assessment of the CSU in the last quarter of 2013. The results of that risk assessment indicated the following areas of highest risk to the system:

Information Security

Proposed audit scope would include review of the systems and managerial/technical measures for ongoing evaluation of data/information collected; identifying confidential, private or sensitive information; authorizing access; securing information; detecting security breaches; and security incident reporting and response.

ADA Web Accessibility

Proposed audit scope would include review of compliance with laws and regulations specific to the Americans with Disabilities Act of 1990 as it applies to accessible technology requirements and program access.

Sponsored Programs – Post Award

Proposed audit scope would include review of contract/grant budgeting and financial planning; indirect cost administration including cost allocation; cost sharing/matching and transfer

Aud Agenda Item 4 January 28-29, 2014 Page 2 of 5

processes; effort-reporting, fiscal reporting, and progress reporting; approval of project expenditures; sub-recipient monitoring; and management and security of information systems.

Audits will be performed at those campuses where a greater degree of risk was perceived for each of these areas. This represents 154 staff weeks of audit effort, which is approximately 14.9 percent of the audit plan.

HIGH PROFILE AREAS

Audits are periodically performed of high profile areas in order to assure the board that appropriate policies and procedures are in place to mitigate risk to the system. This year we will address the following areas:

Continuing Education

Proposed audit scope would include review of the processes for administration of continuing education and extended learning operations as self-supporting entities; budgeting procedures, fee authorizations, and selection and management of courses; faculty workloads and payments to faculty and other instructors; enrollment procedures and maintenance of student records; and reporting of continuing education activity and maintenance of CERF contingency reserves.

Executive Travel

Proposed audit scope would include review of campus travel policies and procedures to ensure alignment and compliance with CSU requirements; review of internal campus processes for monitoring, reviewing and approving travel expense claims; and examination of senior management travel and travel expense claims for proper approvals and compliance with campus and CSU travel policy.

Audits will be performed at those campuses where a greater degree of risk was perceived for each of these areas. This represents 101 staff weeks of audit effort, which is approximately 9.8 percent of the audit plan.

CORE FINANCIAL AREAS

Audits are periodically performed of core financial areas in order to assure the board that appropriate policies and procedures are in place to mitigate risk to the system. This year we will address the following area:

Lottery Funds

Proposed audit scope would include review of campus lottery fund allocation and expenditure policies and procedures to ensure compliance with CSU and state requirements; review of internal campus processes for monitoring, reviewing and approving campus discretionary allocations to specific programs; and examination of specific programs receiving lottery funding to confirm the expenditures are in conformance with state and CSU restrictions.

Audits will be performed at those campuses where a greater degree of risk was perceived for this area. This represents 51 staff weeks of audit effort, which is approximately 4.9 percent of the audit plan.

CARRY-FORWARD

Conflict of Interest

Due to resource constraints, we were unable to complete the audit plan for 2013. One area of review, Conflict of Interest, was postponed with the understanding that it would appear on the 2014 audit plan.

Proposed audit scope would include review of the process for identification of designated positions; monitoring, tracking and review of disclosures relating to conflicts of interest, such as research disclosures; faculty and CSU designated officials reporting; employee/vendor relationships; ethics training; and patent and technology transfer.

Audits will be performed at those campuses where a greater degree of risk was perceived for this area. This represents 53 staff weeks of audit effort, which is approximately 5.1 percent of the audit plan.

AUXILIARY ORGANIZATIONS

In order to provide assurance to the Board of Trustees that adequate oversight is being maintained over auxiliaries, the Office of the University Auditor administers an audit program covering internal compliance/internal controls. It is estimated that 29 auxiliary reviews will take place during calendar year 2014. This represents 273 staff weeks of audit effort, which is approximately 26.6 percent of the audit plan.

ADVISORY SERVICES

The Office of the University Auditor will partner with management to identify solutions for business issues, offers opportunities to improve the efficiency and effectiveness of operating

Aud Agenda Item 4 January 28-29, 2014 Page 4 of 5

areas, and assists with special requests, while ensuring the consideration of related internal control issues. Advisory services are more consultative in nature than traditional audits and are performed in response to requests from campus management. The goal is to enhance awareness of risk, control and compliance issues and to provide a proactive independent review and appraisal of specifically identified concerns. Two hundred nine staff weeks have been set aside for this purpose, representing approximately 20.3 percent of the audit plan.

CONSTRUCTION

Areas under review include design budgets and costs; the bid process; invoice processing and change orders; project management, architectural, and engineering services; contractor compliance; cost verification of major equipment and construction components; the closeout process and liquidated damages; and overall project accounting and reporting. It is estimated that five construction projects will be reviewed during calendar year 2014. This represents 39 staff weeks of audit effort, which is approximately 3.8 percent of the audit plan.

INFORMATION SYSTEMS

Technology support will be provided for both campus and auxiliary organization audits, in addition to advisory services reviews. Thirteen staff weeks are planned during calendar year 2014, which is approximately 1.3 percent of the audit plan.

INVESTIGATIONS

The Office of the University Auditor is periodically called upon to provide investigative reviews which are often the result of alleged defalcations or conflicts of interest. In addition, whistleblower investigations are being performed on an ongoing basis, both by referral from the state auditor and directly from the chancellor's office. Forty-three staff weeks have been set aside for this purpose, representing approximately 4.2 percent of the audit plan.

COMMITTEES/SPECIAL PROJECTS

The Office of the University Auditor is periodically called upon to provide consultation to the campuses and/or to participate on committees, and to perform special projects. Twenty-nine staff weeks have been set aside for this purpose, representing approximately 2.8 percent of the audit plan.

FOLLOW-UPS

The purpose of this category is to follow-up on prior audit recommendations. The Office of the University Auditor reviews the responsiveness of the corrective action taken for each recommendation and determines whether additional action may be required. In certain instances,

Aud Agenda Item 4 January 28-29, 2014 Page 5 of 5

it may be necessary to revisit the campus to ascertain whether the corrective action taken is achieving the desired results. All recommendations are tracked until each is satisfactorily addressed. Reports of follow-up activity are made at each meeting of the Committee on Audit. Sixteen staff weeks have been set aside for this purpose, representing approximately 1.6 percent of the audit plan.

ANNUAL RISK ASSESSMENT

The Office of the University Auditor annually conducts a risk assessment to determine the areas of highest risk to the system. Five staff weeks have been set aside for this purpose, representing approximately 0.5 percent of the audit plan.

ADMINISTRATION

Day to day administration of the Office of the University Auditor represents approximately 4.1 percent of the audit plan.

The following resolution is recommended for approval:

RESOLVED, By the Committee on Audit of the California State University Board of Trustees that the 2014 internal audit plan, as detailed in Agenda Item 4 of the Committee on Audit at the January 28-29, 2014 meeting, be approved.

COMMITTEE ON AUDIT

Report of the Systemwide Audit in Accordance with Generally Accepted Accounting Principles Including the Report to Management

Presentation by

Sally Roush Interim Vice Chancellor for Business and Finance

George Ashkar Assistant Vice Chancellor/Controller Financial Services

Summary

State law and Federal regulations require the California State University (CSU) system be subject to financial statement audits. Annually, financial statement audits are performed for the CSU system as a whole, and also for discretely presented component units (i.e., auxiliary organizations) that separately issue their stand-alone financial statements. In addition, a separate audit is performed each year on the financial statements of the CSU Systemwide Revenue Bond (SRB) program. All of these financial statement audits covering the University and component units are performed by more than twenty Certified Public Accounting firms across the State of California.

The CSU systemwide financial statements for the 2012-2013 fiscal year were issued with an unmodified (i.e., clean) opinion in mid-October, two weeks earlier than the published schedule, as a result of continuous improvement in streamlining and of the audit procedures without diminishing audit quality. There were no audit findings relating to the CSU systemwide financial statements. Highlights of the financial statements will be presented including any significant changes from last year. There were audit findings relating to some of the separately issued financial statements of the auxiliary organizations. The Chancellor's Office is following up on those auxiliary organizations' audit findings to make sure appropriate corrective actions are taken and will report to the Board on their status until they are completed.

In summary, the fiscal year ending June 30, 2013 was a successful year from an audit perspective. All financial reports were completed on or before schedule and received clean opinions. Representatives from KPMG, the systemwide audit firm, will be present to answer questions.

Independent Auditors' Report

The Board of Trustees
California State University:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the California State University, an agency of the State of California (the State), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise California State University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of 90 of the 92 aggregate discretely presented component units, which statements reflect total assets constituting 94% and total revenues constituting 94% of the aggregate discretely presented totals. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the 90 discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the California State University, as of June 30, 2013, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of a Matter

As discussed in Note 2 to the financial statements, California State University adopted Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus*, as of June 30, 2013. The cumulative effect of the implementation of GASB Statement No. 61 resulted in the restatement of net position as of the beginning of the year for both California State University and the discretely presented component units in the amount of \$58,358,000.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 3 through 17 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 15, 2013 on our consideration of California State University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the California State University's internal control over financial reporting and compliance.

October 15, 2013

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

The following discussion and analysis provides an overview of the financial position and performance of the California State University as of and for the year ended June 30, 2013, including 23 campuses and the Chancellor's Office (together referred to as the University), and 92 discretely presented component units (primarily recognized auxiliary organizations). The discussion has been prepared by management and should be read in conjunction with the financial statements and accompanying notes, which follow this section. Separate financial statements are issued for each of the discretely presented component units and may be obtained from the individual campuses.

The financial statements of the University for the year ended June 30, 2013 have been prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities. For reporting purposes, the University is considered a special-purpose government engaged in business-type activities.

Financial Statements

This discussion and analysis is intended to serve as an introduction to the University's financial statements: the statement of net position, the statement of revenues, expenses, and changes in net position, and the statement of cash flows. The financial statements are designed to provide readers with a broad overview of the University's finances from all sources of revenue, in a manner similar to the private sector. The University's discretely presented component units are presented in a separate column to enable the reader to distinguish between the University and these separate but related not-for-profit organizations.

The statement of net position is the University's balance sheet. It presents information on all of the University's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between these four are reported as net position (equity). Assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally reported at their book value, except investments, which are reported at their fair market value. Over time, increases or decreases in net position may serve as a useful indicator of the financial position of the University.

The University's net position is classified into three categories:

- Net investment in capital assets
- Restricted
- Unrestricted

Changes from one year to the next in total net position as presented on the statement of net position are based on the activity presented on the statement of revenues, expenses, and changes in net position.

The statement of revenues, expenses, and changes in net position is the University's income statement. Revenues earned and expenses incurred during the year on an accrual basis are classified as either operating or nonoperating. This distinction results in operating deficits, as the GASB Statement No. 35 reporting model requires classification of state appropriations, a significant revenue stream to fund current operations, as nonoperating revenue.

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

The statement of cash flows presents the changes in the University's cash and cash equivalents during the most recent fiscal year. This statement is prepared using the direct method of cash flows. The statement breaks out the sources and uses of the University's cash and cash equivalents into four categories:

- Operating activities
- Noncapital financing activities
- Capital and related financing activities
- Investing activities

The University's routine activities appear in the operating and noncapital financing categories. Capital and related financing sources include debt proceeds, state capital appropriations, capital grants and gifts, proceeds from sale of capital assets, principal and interest payments received on capital leases, and notes receivable. Within the capital and related financing activities, uses of funds consist of acquisition of capital assets, debt repayments, and issuance of notes receivable. Sales and purchases of investments are part of investing activities.

The statement of cash flows for the discretely presented component units is not included in the University's financial statements.

Financial Highlights

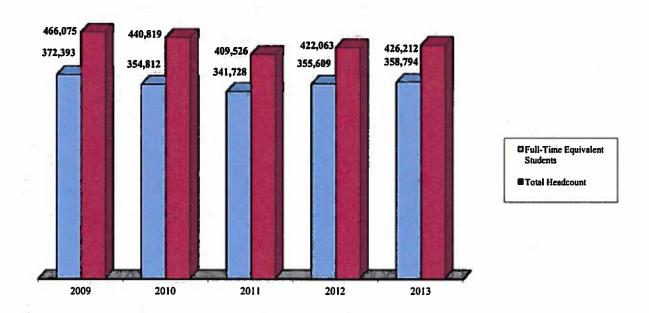

The noncapital state appropriation for the University in fiscal year 2013 was \$2.07 billion, \$72 million higher than in fiscal year 2012. The student tuition fee revenues increased by \$16.1 million in fiscal year 2013, mainly due to student enrollment growth. In fiscal year 2013, the University refunded \$126 million as a rollback of the tuition fee increase in the beginning of the fiscal year, of which \$125 million is expected to be recovered through the State Budget Act for fiscal year 2014.

Headcount enrollment increased from 422,063 in fiscal year 2012 to 426,212 in fiscal year 2013, as reflected in the chart on the following page. At the same time, Full-Time Equivalent Students increased from 355,609 in fiscal year 2012 to 358,794 in fiscal year 2013.

Management's Discussion and Analysis

(Unaudited)

The following chart displays the University's historical enrollment data by fiscal year:

Enrollment

Financial Analysis

The following sections provide additional details on the University's financial position and activities for fiscal years 2013 and 2012 and a look ahead at economic conditions that are expected to affect the University in the future:

- I. Condensed Schedule of Net Position
- II. Condensed Schedule of Revenues, Expenses, and Changes in Net Position

In fiscal year 2013, the University implemented new GASB accounting pronouncements. As a result, the California State University Risk Management Authority (CSURMA) changed from a blended component unit into a discretely presented component unit in accordance with GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*. The effects of the change to the University's financial statements are discussed throughout this analysis.

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

Current and Other Noncurrent Assets

Current and other noncurrent assets are assets that are not capital assets and are used to meet the University's current and noncurrent obligations. These assets consist of cash and cash equivalents, restricted cash and cash equivalents, investments, accounts receivable, notes receivable, leases receivable, student loans receivable, pledges receivable, prepaid expenses, and other assets. The total current and other noncurrent assets of \$4.4 billion for the University represent a decrease of \$123.9 million compared to \$4.6 billion in fiscal year 2012. The decrease is due mainly to GASB Statement No. 61 implementation in the current year which changed CSURMA from a blended component unit to a discretely presented component unit. CSURMA had \$155.5 million of current and noncurrent assets as part of University, of which \$139 million are investments, in 2012, whereas it has \$167.2 million of current and noncurrent assets as part of discretely presented component units, of which \$153.1 million are investments, in 2013. In addition, the University's state appropriation receivable decreased by \$84.8 million as a result of the continuing expenditures for capital projects, offset by current year state appropriations, and decline in leases receivable by \$10.7 million. These decreases are offset by the new note agreements with certain component units of \$48 million to finance existing or newly constructed facilities; reinvestment of \$41.5 million net investment income; and \$25 million net increase in prepaid expenses and other assets mainly due to an increase in capitalized interest and construction reserves on State Public Works Board (SPWB) capital lease obligations.

6

Management's Discussion and Analysis June 30, 2013 (Unaudited)

Current and other noncurrent assets for the discretely presented component units increased by \$301.5 million mainly due to a \$350 million increase in investments offset by a \$57.3 million decrease in restricted cash and cash equivalents. As discussed on page 5, the implementation of GASB Statement No. 61 resulted to an increase of \$153.1 million in investments. The endowment investments also increased by \$134.5 million in 2013.

Capital Assets, Net

The University's capital assets, net of accumulated depreciation, as of June 30, 2013 and 2012, comprise the following:

	2013	2012
	(I	n thousands)
Land and land improvements	\$ 256,97	6 256,993
Buildings and building improvements	5,823,85	7 5,916,053
Improvements other than buildings	166,19	5 144,383
Infrastructure	587,85	8 584,260
Equipment	202,80	9 208,148
Library books and materials	39,19	6 42,286
Works of art and historical treasures	28,69	7 25,423
Intangible assets	29,55	1 33,201
Construction work in progress	553,97	7 412,386
Total	\$7,689,11	6 7,623,133

Total capital assets, net of accumulated depreciation, increased by \$66 million during 2013 as a result of additions on various capital projects including the following:

- Construction in progress on the \$119 million San Luis Obispo Center for Science;
- Construction in progress on the \$102 million San Diego Aztec Center Student Union;
- Construction in progress on the \$89 million San Jose Student Union Expansion and Renovation;
- Construction in progress on the \$72 million San Diego Storm/Nasatir Halls Renovation;
- Construction in progress on the \$62 million Sonoma Student Center; and
- Construction in progress on the \$57 million Pomona Recreation Center

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

Deferred Outflows of Resources

Deferred outflows of resources are consumption of net assets that is applicable to a future reporting period which has a positive effect on the net position. The University's deferred outflows of resources consist of unamortized loss on debt refunding (reported as net of long-term debt obligation in 2012) in accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, effective as of June 30, 2013. The unamortized loss on debt refunding increased by \$5.6 million mainly due to the partial refunding of Systemwide Revenue Bonds series 2002A, 2003A, and 2004A through the issuance of Series 2012A and 2012B in August 2012 and offset by current year amortization.

Current and Noncurrent Liabilities

Current liabilities (liabilities due within one year) and noncurrent liabilities (liabilities due in more than one year) include accounts payable, accrued salaries and benefits, accrued compensated absences, unearned revenues, grants refundable, capitalized lease obligations, long-term debt obligations, claims liability for losses and loss adjustment expenses, depository accounts, other postemployment benefit obligations, and other liabilities.

Current and noncurrent liabilities for the University increased by \$109.8 million, primarily due to a \$136.1 million increase in long-term debt obligations. Other major factors included an increase of \$46.4 million in other postemployment benefits (OPEB) obligations allocated from the State and a decrease of \$76.3 million in claims liability for losses and loss adjustment expenses (previously referred to as self-insurance claims liability) as a result of the implementation of GASB Statement No. 61.

Long-Term Debt Obligations

The University's long-term debt obligations are summarized as follows:

		2013	2012	
	_	(In thousands)		
Systemwide revenue bonds Bond anticipation notes Other	\$ _	3,604,708 27,055 80,352	3,542,648 38,542 75,908	
Total		3,712,115	3,657,098	
Unamortized bond net premium Unamortized loss on debt refunding	-	133,989	79,325 (26,443)	
Total long-term debt obligations		3,846,104	3,709,980	
Less current portion	_	(98,747)	(110,097)	
Long-term debt obligations, net of current portion	\$_	3,747,357	3,599,883	

The University's total long-term debt obligations (net of repayments) increased by \$136.1 million in 2013, mainly due to the issuance of Systemwide Revenue Bonds Series 2012A and Series 2012B and the partial refunding of Series 2002A, 2003A, and 2004A.

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

The table does not include the University's capitalized lease obligations. Capitalized lease obligations for the University increased by \$155.9 million in 2013, consisting primarily of new capital lease obligations of \$167 million with the SPWB, offset by current year repayments.

In addition, the State General Obligation Bond program has provided capital funding for various projects of the University. The debt related to these projects is not allocated to the University by the State and thus is not recorded in the University's financial statements. The total General Obligation Bond debt carried by the State related to University projects at June 30, 2013 and 2012 is approximately \$2.6 billion.

No fundamental changes occurred in the revenues and expenditures of the revenue bond programs during fiscal year 2013. Repayment of specific programmatic revenue bonds is legally limited to the sources of revenue from operations of the projects including specific mandatory fees pledged to the revenue bond programs. For the Systemwide Revenue Bonds, revenues pledged generally include student housing fees, parking fees, student union fees, health center facilities fees, and continuing education fees, as well as other revenues designated by the Board of Trustees for inclusion in the Systemwide Revenue Bonds program.

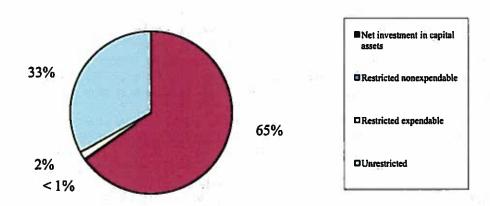

Moody's Investors Service currently provides an intrinsic rating of Aa2, with a stable outlook, for the Systemwide Revenue Bonds. Standard & Poor's Ratings Services currently provides an intrinsic rating of A+, with a positive outlook, for the Systemwide Revenue Bonds. With the exception of certain maturities of Series 2005C, Series 2007A, Series 2008A, and Series 2009A, and all maturities of Series 2010A, Series 2010B, Series 2011A, Series 2012A, and Series 2012B, all Systemwide Revenue Bonds are insured. Since the middle of fiscal year 2008, some providers of insurance for Systemwide Revenue Bonds have been downgraded to ratings below Aaa/AAA. Those bonds that are uninsured bear the intrinsic ratings of the Systemwide Revenue Bonds, which are Aa2 from the Moody's Investors Service and A+ from the Standard & Poor's Ratings Services.

Management's Discussion and Analysis
June 30, 2013
(Unaudited)

Net Position

As noted earlier, net position may serve over time as a useful indicator of the University's financial position. As of June 30, 2013, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$5.7 billion for the University with no significant changes in total net position from prior year.

University Net Position June 30, 2013

Total Net Position: \$5,683,002,000

Net investment in capital assets

The net position category "Net investment in capital assets" represents the University's capital assets, net of accumulated depreciation, and also net of outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets and any related deferred outflows of resources. The University uses these capital assets in its day-to-day operations. This category is the largest portion of the University's net position year-over-year. The net investment in capital assets decreased by \$116 million as a result of depreciation of capital assets at a faster rate than repayment of the long-term debt.

Restricted

Restricted net position has constraints on its use that are either externally imposed by creditors or imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes a government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for specific purposes. Such restrictions are primarily related to endowments, scholarships, capital projects, loans, and debt service funds. The restricted net position category consists of two subcategories: "Restricted nonexpendable" and "Restricted expendable."

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

i. Restricted nonexpendable

The restricted nonexpendable net position is made up of the permanent endowment funds, the corpus of which may not be expendable. Generally speaking, the University's foundations, which are recognized auxiliary organizations, hold the significant majority of the University-related endowments. In the current year, there was no significant change in the University's restricted nonexpendable net position.

ii. Restricted expendable

Restricted expendable net position represents resources that are subject to external restrictions on how they may be used. Such restrictions are primarily related to scholarships, capital projects, loans, and debt service funds. In the current year, there was no significant change in the University's restricted expendable net position.

Unrestricted

The unrestricted net position represents all other net resources available to the University for general and educational obligations. Under generally accepted accounting principles, net position that is not subject to externally imposed restrictions governing their use must be classified as unrestricted for financial reporting purposes. Although unrestricted net position is not subject to externally imposed restrictions per accounting definitions, the predominant portions of the unrestricted net position are designated for specific programs or projects related to certain revenue sources, as further explained in the following paragraphs. The unrestricted net position for the University decreased by \$31.3 million to \$1.9 billion as of June 30, 2013, which consists of \$1.26 billion designated resources from various funds and \$622 million undesignated resources mainly from the operating fund. The undesignated resources provide a prudent reserve for contingencies, such as the uncertain direction of future state appropriations, as well as the effects of an uncertain economic environment.

Within the unrestricted net position category, the designated resources are derived from fee collections and other activities that are designated for very specific purposes and are not to be repurposed and spent for other activities. For example, students pay fees including Housing and Parking fees, campus activities fees, all of which are to be used for specific designated purposes as described in the Education Code. The University also has certain designated resources that represent amounts pledged to support the Systemwide Revenue Bonds program.

Of the \$1.26 billion in designated unrestricted net position, approximately 62% was designated for supporting enterprise activities (i.e., Continuing Education, Housing, Parking, and Student Union), 13% was designated for campus-based projects or programs, and 12% was designated for special capital projects. The remaining 13% was designated for supporting activities related to education, financial aid, and other programs.

Revenues (Operating and Nonoperating)

The following chart displays the components of the University's revenues for fiscal years 2013 and 2012:

		2013	Percentage of total	2012	Percentage of total
	_		(In thou	sands)	
State appropriations (noncapital					
and capital)	\$	2,085,448	32.7%	2,003,442	32.5%
Student tuition and fees, net		2,081,251	32.7%	2,065,126	33.5%
Grants, contracts, and gifts		1,461,990	22.9%	1,382,708	22.4%
Sales and services (educational activities and auxiliary					
enterprises, net)		437,981	6.9%	424,652	6.9%
Investment income, net and other	_	308,508	4.8%	289,624	4.7%
Total revenues (operating and					
nonoperating)	\$_	6,375,178	100.0%	6,165,552	100.0%

The two largest components of revenues are state appropriations and student tuition and fees, net, which accounted for a combined 65.4% of the University's revenues in fiscal year 2013. State appropriations are received for both noncapital and capital purposes. Noncapital appropriations increased by \$72.0 million, or 3.6%,

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

from \$2.0 billion to \$2.07 billion in the current year. Capital appropriations increased by \$10.0 million, or 141.9%, from \$7.0 million to \$17.0 million in the current year. The student tuition and fees net of scholarship and allowances, increased by \$16.1 million, or 0.8%, mainly due to increase in overall student enrollment.

A significant portion of the University's contracts and grants revenue is managed through its component units. Of the total reporting entity's contracts and grants revenue (\$1.8 billion), 26.1% is managed by these related entities. Contracts and grants revenue for the University has increased \$66.9 million or 5.1% in the current year.

Total gift income for the University and the discretely presented component units (which includes operating and capital gifts, as well as additions to permanent endowments) reached \$274.3 million, or 3.4% of the reporting entity's total revenues in fiscal year 2013. It increased \$74.8 million or 37.5% from \$199.5 million in 2012. Gifts are used to support a variety of projects, including capital improvements, scholarships, and endowments for various academic and research programs.

Auxiliary enterprise operations such as student housing may be run by the University or by component units depending on the campus, whereas student unions are run by component units. There was no significant change in sales and services of auxiliary enterprises revenue for the total reporting entity (either the University or component units) in the current year.

Investment income, net and other for the University, which consists of investment income, endowment income, other operating revenues, and other nonoperating revenues, increased by \$18.9 million to \$308.5 million in the current year. The increase was primarily due to an increase of \$26.4 million in other nonoperating revenues and \$10 million increase in other operating revenues, offset by a decrease of \$17.5 million in investment income, net, in the current year.

The University's investment portfolio consists primarily of investments held in the State of California Surplus Money Investment Fund (SMIF) and the California State University Consolidated Investment Pool. The University's strategy is to continue in investing in securities with low interest rates and short maturities.

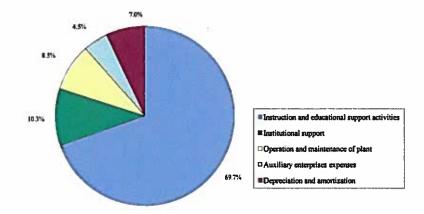

Management's Discussion and Analysis June 30, 2013

(Unaudited)

Operating Expenses

When the mission-critical educational support activities of student services, academic support, grants and scholarships, public service, and research are added to direct classroom instruction, total instruction and educational support activities account for 69.7% of the total operating expenses of the University as shown below:

(In thousands)		
Instruction	\$ 2,133,286	34.4%
Research	42,503	0.7%
Public service	65,304	1.1%
Academic support	601,204	9.7%
Student services	653,141	10.5%
Student grants and scholarships	826,933	13.3%
Total instruction and		96
educational support activities	4,322,371	69.7%
Institutional support	640,419	10.3%
Operation and maintenance of plant	528,776	8.5%
Auxiliary enterprises expenses	281,312	4.5%
Depreciation and amortization	435,530	7.0%
Total operating expenses	\$6,208,408	100.0%

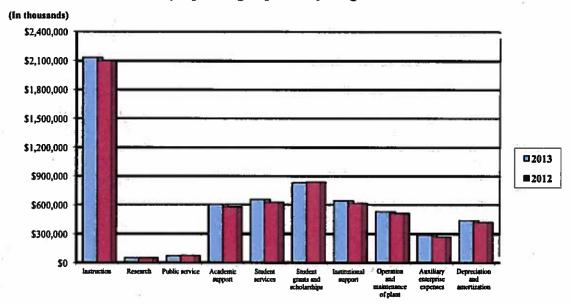

Management's Discussion and Analysis

June 30, 2013

(Unaudited)

Total operating expenses for the University increased by \$167.9 million in the current year. The increase was a result of primarily the increase in employees' and retirees' benefit costs, and insurance premiums resulting in an increase of \$35.9 million in instruction expenses, \$24.3 million in academic support, \$30.5 million in student services and \$27.9 million in institutional support. Other factors included increases in auxiliary enterprise expenses due to housing and parking lot improvements, depreciation and amortization, and maintenance and repair expenses. These increases were offset by overall cost reductions measures in various functional categories. The chart below displays the University's operating expenses by program for fiscal years 2013 and 2012.

University Operating Expenses by Program

Factors Impacting Future Periods

The State Budget Act for fiscal year 2014, approved by the Governor on June 27, 2013, resulted in noncapital state appropriation of \$2.34 billion, which represents an increase of \$267 million over the fiscal year 2013 enacted budget. This increase consists of \$125 million to restore the University's revenue loss from the fiscal year 2013 tuition fee rollback, another \$125 million increase in general noncapital operating budget support, and \$17 million for other items.

Amortization of prepaid interest related to SPWB capital lease obligation		18,926,000
Amortization of loss on debt refundings		10,594,000
Change in accrued capital asset purchases Other miscellaneous noncash transactions related to discretely presented component		4,665,000
units and capital assets		3,470,000
SPWB program appropriation for construction reserve funds	2.5	2,225,000
Acquisition of capital assets through capital lease		1,390,000
Operating expenses paid through long-term debt		1,789,000
Gifts in kind		502,000
Amortization of bond premium and discount		(9,800,000)

See accompanying notes to financial statements.

Notes to Financial Statements June 30, 2013

(1) Organization

California State University (the University) was established under the State of California Education Code as a public university to offer undergraduate and graduate instruction for professional and occupational goals emphasizing a broad liberal arts education. As an agency of the State of California (the State), the University is also included in the State's financial statements. Responsibility for the University is vested in the Trustees of California State University (the Trustees) who, in turn, appoint the Chancellor, the chief executive officer of the University, and the University Presidents, the chief executive officers of the respective campuses. In addition to the Office of the Chancellor, the following 23 campuses comprise the California State University at June 30, 2013:

- California State University, Bakersfield
- California State University, Channel Islands
- California State University, Chico
- California State University, Dominguez Hills
- California State University, East Bay
- California State University, Fresno
- California State University, Fullerton
- Humboldt State University
- California State University, Long Beach
- California State University, Los Angeles
- California Maritime Academy
- California State University, Monterey Bay
- California State University, Northridge
- California State Polytechnic University, Pomona
- California State University, Sacramento
- California State University, San Bernardino
- San Diego State University
- San Francisco State University
- San Jose State University
- California Polytechnic State University, San Luis Obispo
- California State University, San Marcos
- Sonoma State University
- California State University, Stanislaus

Notes to Financial Statements June 30, 2013

The University provides instruction for baccalaureate, masters', doctorate, and certificate programs, and operates various auxiliary enterprises, such as student housing and parking facilities. In addition, the University administers a variety of financial aid programs that are funded primarily through state and federal programs.

(2) Summary of Significant Accounting Policies

(a) Financial Reporting Entity

In accordance with Governmental Accounting Standards Board (GASB) Statements No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, and No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities, the accompanying financial statements present the statement of net position, statement of revenues, expenses, and changes in net position, and statement of cash flows of the 23 campuses and the Office of the Chancellor of the California State University.

In addition, the accompanying financial statements include the accounts of the 92 discretely presented component units which are primarily University-related recognized auxiliary organizations. There are four discretely presented component units that are not auxiliary organizations (identified by asterisk (*) below). These discretely presented component units are legally separate entities that provide services primarily to the University and its students. Such organizations include foundations, associated students, student unions, food service entities, bookstores, and similar organizations. Foundations, whose net position comprises approximately 78% of the discretely presented component unit totals, carry out a variety of campus-related activities. Such activities consist primarily of administering grants from governmental and private agencies for research, as well as soliciting and accepting donations, gifts, and bequests for University-related use. Separate financial statements are issued for each of the discretely presented component units and may be obtained from the individual campuses.

The recognized discretely presented component units are as follows:

- California State University, Bakersfield, Foundation
- Associated Students, Inc., California State University, Bakersfield
- California State University, Bakersfield Student Union
- California State University, Bakersfield, Auxiliary for Sponsored Programs Administration
- California State University Institute
- California State University Foundation
- California State University Risk Management Authority*
- California State University, Channel Islands Foundation
- Associated Students of California State University, Channel Islands, Inc.
- CSUCI Financing Authority*

Notes to Financial Statements June 30, 2013

- California State University, Channel Islands Site Authority*
- California State University Channel Islands University Glen Corporation
- The CSU, Chico Research Foundation
- The University Foundation, California State University, Chico
- Associated Students of California State University, Chico
- California State University Dominguez Hills Foundation
- Associated Students, Inc., California State University, Dominguez Hills
- The Donald P. and Katherine B. Loker University Student Union, Inc., California State University, Dominguez Hills
- California State University, East Bay Foundation, Inc.
- Associated Students, Inc. of California State University, East Bay
- Cal State East Bay Educational Foundation, Inc.
- California State University, Fresno Foundation
- Associated Students, Inc. of California State University, Fresno
- California State University, Fresno Association, Inc.
- The Agricultural Foundation of California State University, Fresno
- California State University, Fresno Athletic Corporation
- The Bulldog Foundation (Fresno)*
- Fresno State Programs for Children, Inc.
- Cal State Fullerton Philanthropic Foundation
- Associated Students, California State University, Fullerton, Inc.
- Titan Student Centers Associated Students California State University, Fullerton, Inc.
- CSU Fullerton Housing Authority
- CSU Fullerton Auxiliary Services Corporation
- Humboldt State University Sponsored Programs Foundation
- Associated Students of Humboldt State University
- Humboldt State University Center Board of Directors
- Humboldt State University Advancement Foundation
- California State University, Long Beach Research Foundation
- California State University, Long Beach 49er Foundation

Notes to Financial Statements June 30, 2013

- Associated Students, Inc., California State University, Long Beach
- Forty-Niner Shops, Inc. (Long Beach)
- Cal State L.A. University Auxiliary Services, Inc.
- California State University, Los Angeles Foundation
- Associated Students of California State University, Los Angeles, Inc.
- University Student Union at California State University, Los Angeles
- California Maritime Academy Foundation, Inc.
- Associated Students of the California Maritime Academy
- University Corporation at Monterey Bay
- Foundation of California State University, Monterey Bay
- California State University, Northridge Foundation
- Associated Students, Inc., California State University, Northridge
- University Student Union, Inc., California State University, Northridge
- North Campus University Park Development Corporation (Northridge)
- The University Corporation (Northridge)
- Cal Poly Pomona Foundation, Inc.
- Associated Students, Inc., California State Polytechnic University, Pomona
- The University Foundation at Sacramento State
- University Enterprises, Inc. (Sacramento)
- Associated Students, Inc. of California State University, Sacramento
- University Union Operation of California State University, Sacramento
- Capital Public Radio, Inc. (Sacramento)
- Santos Manuel Student Union of California State University, San Bernardino
- Associated Students, Incorporated, California State University, San Bernardino
- CSUSB Philanthropic Foundation
- University Enterprises Corporation at CSUSB
- San Diego State University Research Foundation
- The Campanile Foundation (San Diego)
- Associated Students of San Diego State University

Notes to Financial Statements June 30, 2013

- Aztec Shops, Ltd. (San Diego)
- The University Corporation, San Francisco State
- Associated Students of San Francisco State University
- San Francisco State University Student Center
- San Francisco State University Foundation
- Associated Students of San Jose State University
- The Student Union of San Jose State University
- The Tower Foundation of San Jose State University

- University Auxiliary and Research Services Corporation (San Marcos)
- Associated Students, Inc. of California State University, San Marcos
- San Marcos University Corporation
- California State University San Marcos Foundation
- Sonoma State University Academic Foundation, Inc.
- Associated Students of Sonoma State University
- Sonoma State Enterprises, Inc.
- California State University, Stanislaus Foundation
- Associated Students Incorporated of California State University, Stanislaus
- University Student Union of California State University, Stanislaus
- California State University, Stanislaus Auxiliary and Business Services

These component units are presented in the accompanying financial statements as discretely presented component units of the University due to the nature and significance of their relationship with the University. The relationships are such that exclusion of these organizations from the reporting entity would render the financial statements incomplete, primarily due to their close affiliation with the University. These organizations are discretely presented to allow the financial statement users to distinguish between the University and the component units. None of the component units are considered individually significant to the total discretely presented component units.

Notes to Financial Statements June 30, 2013

All significant nonexchange transactions have been eliminated.

The accompanying financial statements also include the Stockton Center Site Authority, Fullerton Arboretum, and California State Student Association, which are included as blended component units. These organizations primarily provide services to the University in the areas of asset management and debt financing. The University is financially accountable for these organizations.

(b) Basis of Presentation

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

As a public institution, the University is considered a special-purpose government under the provisions of GASB Statement No. 35. The University records revenue in part from fees and other charges for services to external users and, accordingly, has chosen to present financial statements using the reporting model for special-purpose governments engaged in business-type activities. This model allows all financial information for the University to be reported in a single column in each of the financial statements, accompanied by aggregated financial information for the component units, as discussed above. The effect of internal activity between funds or groups of funds has been eliminated from these financial statements.

(c) Implementation of New Accounting Pronouncements

In November 2010, the GASB issued Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements, effective for the University's fiscal year beginning July 1, 2012. This Statement requires the University to report the activities for certain public-private partnerships as service concession arrangements in the financial statements. Service concession arrangements are recorded when the arrangements meet certain criteria which include building and operating a facility, obtaining the right to collect fees from third parties, and transferring ownership of the facility to the University at the end of the arrangement. Implementation of Statement No. 60 had no effect on the University's net position or changes in net position for the year ended June 30, 2013.

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus*, effective for the University's fiscal year beginning July 1, 2012. This Statement modifies the existing requirements for the assessment of component units that should be included in the financial statements of the University. The effect of the changes from the implementation of Statement No. 61 on the University's financial statements for the year ended June 30, 2013 was as follows:

Net position as of June 30, 2012, as previously reported
Change in reporting for CSU Risk Management Authority – Changing from a blended component unit to a discretely presented component unit

Net position at beginning of year, as restated

\$ 5,818,777,000 (58,358,000)

Notes to Financial Statements June 30, 2013

The beginning net position of the University has been restated primarily due to California State University Risk Management Authority (CSURMA), previously reported as a blended component unit, now being reported as a discretely presented component unit in accordance with GASB Statement No. 61.

In December 2010, the GASB issued Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncement, effective for the University's fiscal year beginning July 1, 2012. The objective of this statement is to incorporate into the GASBs authoritative literature certain accounting and financial reporting guidance that was previously included within the Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the American Institute of Certified Public Accountants' Committee on Accounting Procedure.

In June 2011, the GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, effective for the University's fiscal year beginning July 1, 2012. This Statement modifies the presentation of the deferred inflows and deferred outflows in the financial statements. The effect of the changes from the implementation of Statement No. 63 on the University's financial statements was the presentation of deferred outflows and inflows or resources in the statement of net position.

In June 2011, the GASB issued Statement No. 64, Derivative Instruments: Application of Hedge Accounting Termination Provisions, effective for the University's fiscal year beginning July 1, 2012. This Statement clarifies the existing requirements for the termination of hedge accounting. Implementation of Statement No. 64 had no effect on the University's net position or changes in net position for the year ended June 30, 2013.

In March 2012, the GASB issued Statement No. 65, Items Previously Reported as Assets and Liabilities, effective for the University's fiscal year beginning July 1, 2013; however, the University early adopted this Statement effective for the fiscal year beginning July 1, 2012. This Statement reclassifies, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. Implementation of Statement No. 65 resulted to the (a) recognition of unamortized loss on debt refundings previously reported net of long-term debt obligations as deferred outflows of resources and (b) bond-issuance costs, except any portion related to prepaid insurance costs, being recognized as expense in the period incurred.

28

Notes to Financial Statements June 30, 2013

(d) Discretely Presented Component Units Restatements

The beginning net position of the discretely presented component units has been restated primarily due to the implementation of GASB Statements No. 61 (refer to note 2(c)) and No. 65. A summary of the restatements to net position at the beginning of the year related to the discretely presented component units is as follows:

Net position as of June 30, 2012, as previously reported	\$ 2,050,840,000
Adjustment for implementation of GASB Statement No. 61	 58,358,000
Adjustment for implementation of GASB Statement No. 65	(7,816,000)
Adjustment for overstatement of OPEB	1,156,000
Adjustment for overstatement of notes receivable	(754,000)
Adjustment for overstatement of unearned revenue	(100,000)
Net position at beginning of year, as restated	\$ <u>2,101,684,000</u>

(e) Classification of Current and Noncurrent Assets (Other than Investments) and Liabilities

The University considers assets to be current that can reasonably be expected, as part of its normal business operations, to be converted to cash and be available for liquidation of current liabilities within 12 months of the statement of net position date. Liabilities that reasonably can be expected, as part of normal University business operations, to be liquidated within 12 months of the statement of net position date are considered to be current. All other assets and liabilities are considered noncurrent. For classification of current and noncurrent investments, refer to note 2(g).

(f) Cash Equivalents and Statement of Cash Flows

The University considers highly liquid investments with an original maturity date of three months or less to be cash equivalents. The University considers amounts included in the CSU Consolidated Investment Pool to be investments. The statement of cash flows does not include the cash flows of the discretely presented component units.

(g) Investments

Investments are reflected at fair value using quoted market prices. Realized and unrealized gains and losses are included in the accompanying statement of revenues, expenses, and changes in net position as a component of investment income, net.

Investments that are used for current operations are classified as short-term investments. Investments that are restricted for withdrawal or use for other than current operations, designated or restricted for the acquisition or construction of noncurrent assets, designated or restricted for the liquidation of the noncurrent portion of long-term debt, and restricted as to the liquidity of the investments are classified as other long-term investments.

(h) Accounts Receivable

The University maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable based on type of receivables and expectations of repayment. In establishing the required allowance, management considers one or more of the following: type of receivables, state

Notes to Financial Statements June 30, 2013

guidelines, historical losses adjusted to take into account current market conditions, the amount of receivables in dispute, the current receivables aging, and current payment patterns. The University reviews its allowance for doubtful accounts annually. Past due balances over 90 days and over a specified amount are reviewed individually for collectibility.

(i) Capital Assets

Capital assets are stated at cost or estimated historical cost if purchased, or, if donated, at estimated fair value at date of donation. Capital assets, including infrastructure and intangible assets, with an original value of \$5,000 or more and with a useful life of one year or more, are capitalized. Such cost includes, where applicable, interest capitalized as part of the cost of constructed capital assets. Title to all University assets, whether purchased, constructed, or donated, is held by the State. Although title is not with the University for land and buildings, the University has exclusive use of these assets and is responsible for the maintenance of these assets and thus has recorded the cost of these assets in the accompanying financial statements. Capital assets, with the exception of land and land improvements, works of art and historical treasures, construction work in progress, and certain intangible assets, are depreciated or amortized on a straight-line basis over their estimated useful lives, which range from 3 to 45 years. Library books, unless considered rare collections, are capitalized and depreciated over a 10-year period. Periodicals and subscriptions are expensed as purchased. Works of art and historical treasures are valued at cost, if purchased, or the fair market value at the date of donation, if contributed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its life are expensed as incurred.

Depreciation and amortization expense is shown separately in the statement of revenues, expenses, and changes in net position rather than being allocated among other categories of operating expenses.

(j) Unearned Revenue

Unearned revenue consists primarily of fees collected in advance for summer and fall terms and continuing education programs.

(k) Compensated Absences

Compensated absences are recognized when the right to receive the compensation is earned by the employees. Vacation is accrued on a monthly basis. The University uses an employee's current pay rate as of July 1, 2013 to calculate the liability for accrued compensated absences. The University employee's pay rates are based on length of service and job classifications.

(l) Grants Refundable

The University periodically receives contributions from the Federal government in support of its operation of the Federal Perkins and Nursing Loan programs, both Title IV Loan programs. The Federal government has the ability to terminate its support of these programs at any time and to request the University return those contributions on a cumulative basis. Accordingly, the Federal contributions received and retained by the University at year-end are considered liabilities of the University and are reflected as such in the accompanying statement of net position.

Notes to Financial Statements June 30, 2013

(m) Claims Liability for Losses and Loss Adjustment Expenses

The claims liability for losses and loss adjustment expenses included in the aggregate discretely presented component units column of the financial statements includes CSURMA's estimated ultimate cost of settling claims relating to events that have occurred on or before June 30, 2013. The liability includes the estimated amount that will be required for future payments of claims that have been reported and claims related to events that have occurred but have not been reported. The liability is also reduced by estimated amounts recoverable from the reinsurance that is related to the liabilities for unpaid claims and claim adjustment expenses. The liability is estimated through an actuarial calculation using individual case basis valuations and statistical analyses. The liability is not discounted.

Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. Adjustments to claim liabilities are charged or credited to expense in the periods in which they are made.

In the estimate of the unpaid losses and loss adjustment expenses, CSURMA and its consulting actuary have employed methods and assumptions they considered reasonable and appropriate given the information currently available. Given the inherent uncertainty in the nature of such estimates, future losses may deviate from those estimates.

(n) Net Position

The University's net position is classified into the following categories:

• Net Investment in Capital Assets: Capital assets, net of accumulated depreciation, and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets and any related deferred outflows of resources.

Restricted:

Nonexpendable: Net position subject to externally imposed conditions that the University retains in perpetuity. Net position in this category consists of endowments held by the University or its related auxiliaries.

Expendable: Net position subject to externally imposed conditions that can be fulfilled by the actions of the University or by the passage of time.

• Unrestricted: All other categories of net position. In addition, unrestricted net position may have legislative or bond indenture requirements associated with their use or may be designated for use by management of the University. These requirements limit the area of operations for which expenditures of net position may be made and require that unrestricted net position be designated to support future operations in these areas. University housing programs are a primary example of operations that have unrestricted net position with designated uses.

Notes to Financial Statements June 30, 2013

(o) Classification of Revenues and Expenses

The University considers operating revenues and expenses in the statement of revenues, expenses, and changes in net position to be those revenues and expenses that result from exchange transactions and from other activities that are connected directly to the University's primary functions. Exchange transactions include charges for services rendered and the acquisition of goods and services. Certain other transactions are reported as nonoperating revenues and expenses in accordance with GASB Statement No. 35. These nonoperating activities include the University's capital and noncapital appropriations from the State, financial aid, net investment income, noncapital gifts, interest expense, and capital grants and gifts.

The State appropriates funds to the University on an annual basis. The appropriations are, in turn, allocated among the campuses by the Office of the Chancellor. Appropriations are recognized as revenue in general when authorization is received and are reported as either noncapital appropriations when used to support general operations or capital appropriations when used for capital projects.

Student tuition and fee revenue, and sales and services of auxiliary enterprises, including revenues from student housing programs, are presented net of scholarships and fellowships applied to student accounts. Certain other scholarship amounts are paid directly to, or refunded to, the student and are reflected as expenses.

(p) Other Postemployment Benefits

The University's other postemployment benefit obligation included in the accompanying financial statements reflects the University's estimated funding liability of the State administered and sponsored plan as of the fiscal year ended. The State's actuary has employed methods and assumptions considered reasonable and appropriate given the information currently available. Given the inherent uncertainty in the nature of such estimates, future amounts may deviate from those estimates.

(q) Grant Revenue and Expenses

The University records grant revenue when all applicable grant eligibility requirements are met. Expenses are recorded as expenditures are incurred. Expenditure-driven grant revenue is recorded after the expenditures are incurred, in amounts equal to the expenditures.

(r) Internal Services Activities

Certain institutional internal service providers offer goods and services to University departments, as well as to their external customers. These include activities such as copy centers, postal services, and telecommunications. All internal service activities to University departments have been eliminated in the accompanying financial statements. These eliminations are recorded by removing the revenue and expense in the internal service sales and service units and, if significant, allocating any residual balances to those departments receiving the goods and services during the year.

Notes to Financial Statements June 30, 2013

(s) Income Taxes

The University is an agency of the State and is treated as a governmental entity for tax purposes. As such, the University is generally not subject to federal or state income taxes. However, the University remains subject to income taxes on any net income that is derived from a trade or business, regularly carried on and not in furtherance of the purpose for which it was granted exemption. No income tax provision has been recorded. If there is net income from any unrelated trade or business, such provision, in the opinion of management, is not material to the financial statements taken as a whole.

(t) Eliminations

All significant nonexchange transactions between the University and the discretely presented component units have been eliminated from the total column and are separately presented in the eliminations column in the accompanying statement of revenues, expenses, and changes in net position.

(u) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the accompanying financial statements. Actual results could differ from those estimates.

(3) Cash, Cash Equivalents, and Investments

The University's cash, cash equivalents, and investments as of June 30, 2013 are classified in the accompanying statement of net position as follows:

sh equivalents ash and cash equivalents	\$ 8,332,000 43,000
Total cash and cash equivalents	8,375,000
investments investments term investments	2,626,675,000 20,657,000 397,072,000
Total investments	3,044,404,000
Total cash, cash equivalents, and investments	\$ 3,052,779,000

(a) Cash and Cash Equivalents

At June 30, 2013, cash and cash equivalents consisted of demand deposits held at the State Treasury and commercial banks, and petty cash. Total cash and cash equivalents of \$8,375,000 had a corresponding carrying balance with the State Treasury and commercial banks of \$24,739,000 at June 30, 2013. The difference was primarily related to deposits in transit and outstanding checks.

Notes to Financial Statements

June 30, 2013

Custodial Credit Risk for Deposits

Custodial credit risk for deposits is the risk that the University will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The California Government Code and Education Code do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the provision that a financial institution must secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. This risk is mitigated in that the University's deposits are maintained at financial institutions that are fully insured or collateralized as required by state law.

(b) Investments

At June 30, 2013, the University's investment portfolio consists primarily of investments in the State of California Surplus Money Investment Fund (SMIF) and the CSU Consolidated Investment Pool. For the CSU Consolidated Investment Pool, separate accounting is maintained as to the amounts allocable to the various CSU funds and programs.

Investment Policy

State law and regulations require that surplus monies of the University must be invested. The primary objective of the University's investment policy is to safeguard the principal. The secondary objective is to meet the liquidity needs of the University. The third objective is to return an acceptable yield. The University's investment policy authorizes funds held in local trust accounts under Education Code Sections 89721 and 89724 to be invested in any of the securities authorized by Government Code Section 16430 and Education Code Section 89724, subject to certain limitations. In general, the University's investment policy permits investments in obligations of the Federal and California state governments, certificates of deposit, high grade corporate and fixed income securities, and certain other investment instruments.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The University has formal duration guidelines to manage its interest rate risk. The duration guidelines include limits on the maximum maturity of any individual investment in the portfolio and average duration of the investment portfolio. One of the ways that the University manages its exposure to interest rate risk is by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or nearing maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The University identifies and manages the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. Weighted average maturity is based on the stated maturity date, assuming that the callable investments will not be called. The weighted average maturity of the University's investment portfolio for each investment type as of June 30, 2013 is presented in the table on the following page.

Notes to Financial Statements June 30, 2013

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

The following table presents the fair value, weighted average maturity, and actual rating by investment type of the University's allocated share of the CSU Consolidated Investment Pool and the SMIF as of June 30, 2013:

*		Weighted average	_	Rating as of year-end			
Investment type	Fair value	maturity (in years)		AAA	AA	A 32	Not rated
Money market \$	44,846,000	0.08	S	7,755,000	_	32,000,000	5,091,000

Total \$_	3,044,404,000		\$	127,983,000	1,024,188,000	850,404,000	1,041,829,000

By law, the SMIF only invests in: U.S. government securities, securities of federally-sponsored agencies, domestic corporate bonds, interest-bearing time deposits in California banks, savings and loan associations and credit unions, prime-rated commercial paper, repurchase and reverse repurchase agreements, security loans, banker's acceptances, negotiable certificates of deposit and loans to various bond funds.

Concentration of Credit Risk

The University's investment policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. As of June 30, 2013, the following investments (excluding U.S. Treasury securities, mutual funds, and external investment pools) represented 5% or more of the University's investment portfolio: Federal National Mortgage Association notes (\$218,223,000 or 7.2%), Federal Home Loan Mortgage Corporation (\$199,935,000 or 6.6%), Federal Home Loan Banks Office of Finance (\$192,634,000 or 6.3%), and Federal Farm Credit Banks Consolidated Systemwide Bonds (\$159,879,000 or 5.3%).

Notes to Financial Statements

June 30, 2013

Risk and Uncertainties

The University may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net position.

The University, through the CSU Consolidated Investment Pool, invests in securities with contractual cash flows, such as asset-backed securities and mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Custodial Credit Risk for Investments

Custodial credit risk is the risk that in the event of the failure of the custodian, the investments may not be returned. Substantially all of the University's securities are registered in the University's name by the custodial bank as an agent for the University. As a result, custodial credit risk for such investments is remote.

Discretely Presented Component Units' Investments

Investments of the discretely presented component units at fair value consisted of the following at June 30, 2013:

		Current	Noncurrent	Total
State of California Local Agency				
Investment Fund	\$	162,270,000	9,178,000	171,448,000
U.S. Bank SWIFT pool		67,516,000	1,484,000	69,000,000
Common Fund		1,344,000	11,650,000	12,994,000
Debt securities		9,257,000	150,810,000	160,067,000
Equity securities		54,436,000	320,681,000	375,117,000
Fixed income securities		20,552,000	247,410,000	267,962,000
Real estate		1,161,000	36,292,000	37,453,000

Total	\$_	553,474,000	1,528,714,000	2,082,188,000

Notes to Financial Statements June 30, 2013

For additional information regarding the investments of the individual discretely presented component units, refer to their separately issued financial statements.

Approximately \$3.8 million of the investments reported by the University in the statement of net position at June 30, 2013 are invested under contractual agreements on behalf of the discretely presented component units of the University.

(4) Accounts Receivable

Accounts receivable of the University at June 30, 2013 consisted of the following:

1	Current	Noncurrent	Total
State appropriations	\$ 5,163,000	356,780,000	361,943,000
Auxiliary organizations	34,630,000	3,221,000	37,851,000
Student accounts	59,334,000	-	59,334,000
Government grants and contracts	27,883,000	_	27,883,000
Other	46,973,000	2,253,000	49,226,000
	173,983,000	362,254,000	536,237,000
Less allowance for doubtful accounts	(22,286,000)		(22,286,000)
Total	\$151,697,000	362,254,000	513,951,000

Notes to Financial Statements June 30, 2013

(5) Leases Receivable

The University has entered into capital lease agreements with certain auxiliary organizations to lease existing and newly constructed facilities to the auxiliary organizations. Lease payments are due twice a year on May 1 and November 1.

Under the lease agreements, lease payments are due to the University as follows:

Fiscal year ending:	
2014	\$ 29,402,000
2015	29,369,000
2016	26,753,000
2017	27,040,000
2018	27,122,000
2019 – 2023	141,276,000
2024 – 2028	148,792,000
2029 – 2033	131,503,000
2034 – 2038	42,746,000
2039 – 2043	23,190,000
2044 – 2048	8,986, <u>000</u>
Total minimum lease payments to be received	636,179,000
Less amounts representing interest	(253,826,000)
Present value of future minimum lease payments to be received	382,353,000
Less current portion	(10,992,000)
Long-term lease receivable, net of current portion	\$ 371,361,000

Notes to Financial Statements June 30, 2013

(6) Notes Receivable

The University has entered into note agreements with certain auxiliary organizations to finance existing and newly constructed facilities for the auxiliary organizations. Note payments are due twice a year, on May 1 and November 1.

Under the note agreements, note payments are due to the University as follows:

Fiscal year ending:		
2014	\$	23,668,000
2015		19,172,000
2016		32,542,000
2017		19,074,000
2018		19,105,000
2019 – 2023		104,920,000
2024 – 2028		88,289,000
2029 – 2033		80,929,000
2034 – 2038		49,040,000
2039 – 2043		7,707,000
2044 – 2048		1,124,000
2049 – 2053	ļ	1,124,000
Total minimum note payments to be received		446,694,000
Less amounts representing interest	,	(169,007,000)
Present value of future minimum note payments to be received		277,687,000
Less current portion		(11,453,000)
Long-term notes receivable, net of current portion	\$	266,234,000

Notes to Financial Statements June 30, 2013

(7) Capital Assets

Capital assets activity for the University for the year ended June 30, 2013 consisted of the following:

Nondepreciable/nonamortizable capital assets: Land and land improvements \$256,973,000 13,000 (30,000) — 256,976,000 Works of art and historical treasures 25,423,000 3,302,000 (28,000) — 28,697,000 Construction work in progress 412,386,000 385,658,000 (1,483,000) (242,584,000) 553,977,000 Intangible assets 1,361,000 5,746,000 (46,000) (370,000) 6,691,000	the state of the s	Beginning balance	Additions	Retirements	Transfers	Ending balance

Notes to Financial Statements June 30, 2013

For additional information regarding the capital assets of the individual discretely presented auxiliary organizations of the University, refer to their separately issued financial statements.

(8) Lease Obligations

The University is obligated under various capital and operating leases and installment purchase agreements for the acquisition of equipment and facility rentals. A substantial amount of the capital leases is a result of the University's participation with the State in the State Public Works Board (SPWB) Lease Revenue Bond program. The University has participated in this program since 1986 in connection with the construction of campus facilities and related equipment. Current California law permits the SPWB to authorize the sale of bonds to construct certain state facilities if there is a revenue stream that can be pledged to repay the obligations. The process in general is described in brief as follows:

- The University and the State of California Department of Finance agree to the construction of one or more facilities to be funded by SPWB bonds. The projects are approved as part of the University's capital outlay budget.
- The SPWB approves the sale of bonds for the project(s) and the University agrees to execute certain legal documents in connection with the financing, including a site lease to the SPWB, a construction agreement to construct the facility for the SPWB, and a facility lease to lease the completed facility from the SPWB for annual rental payments.
- Prior to the execution of the facility lease, the University receives a short-term loan from the State of California Pooled Money Investment Board to provide working capital for initial phases of the construction and in some cases the entire construction.
- Generally, during the construction phase of the project, the bonds are sold by the SPWB, the construction loan is repaid, and site leases and facility leases are executed requiring semiannual lease payments, beginning upon completion of the facilities, by the Trustees that are used to pay principal and interest on the bonds.
- As part of the annual budget process, the State of California Department of Finance augments the University's operating budget to provide additional funds for the required lease payments.

The University also enters into capital leases with financial institutions and via commercial paper issued by the California State University Institute (the Institute), a discretely presented component unit of the University.

Overall capital leases consist primarily of leases of campus facilities, but also include certain computer, energy efficiency, and telecommunications equipment. Total assets related to capital leases have a carrying value of \$734,771,000 at June 30, 2013. The leases bear interest at rates ranging from 1.79% to 19.00% and have terms expiring in various years through 2041.

Operating leases consist primarily of leases for the use of real property. The University's operating leases expire in various fiscal years through 2099. The leases can be canceled if the State does not provide adequate funding. Some of these leases are with related auxiliary organizations for the rental of office space used in the operations of the University. Total operating lease expenditures for the year ended June 30, 2013 were \$23,990,000 of which \$12,696,000 was paid to related auxiliary organizations.

Notes to Financial Statements June 30, 2013

Future minimum lease payments under capital and operating leases having remaining terms in excess of one year as of June 30, 2013 are as follows:

The state of the s	16	Capital leases	Operating leases
Year ending June 30:	•	200	· · · · · · · · · · · · · · · · · · ·

(9) Long-Term Debt Obligations

(a) General Obligation Bond Program

The General Obligation Bond program of the State has provided capital outlay funds for the three segments of California Higher Education through voter-approved bonds. Each of the approved bond programs provides a pool of available funds, which is allocated on a project-by-project basis among

Notes to Financial Statements June 30, 2013

the University, the University of California, and the Community Colleges. Financing provided to the University through State of California General Obligation Bonds is not allocated to the University by the State. This debt remains the obligation of the State and is funded by state tax revenues. Accordingly, such debt is not reflected in the accompanying financial statements. The total General Obligation Bond debt carried by the State related to the University projects is approximately \$2,632,154,000 as of June 30, 2013.

(b) Revenue Bond Programs

The Revenue Bond Act of 1947 provides the Trustees with the ability to issue revenue bonds to fund specific self-supporting programs. The statute has enabled the Trustees to finance student housing, student unions, parking facilities, health facilities, continuing education facilities, and designated auxiliary organization facilities.

The Systemwide Revenue Bond program, formerly the Housing Revenue Bond program, was approved by the Board of Trustees in fiscal year 2003. This program provides funding for various construction projects, including student residence and dining halls facilities, continuing education buildings, student unions, parking facilities, health facilities, and auxiliary organization facilities at designated campuses within the system as specified by the individual bond documents. It is designed to provide lower cost debt and greater flexibility to finance revenue bond projects at the University. Rather than relying on specific pledged revenues to support specific debt obligations, this program pools several sources of revenue as the pledge for the revenue-producing projects. The University's total outstanding balance of revenue bond indebtedness under the Systemwide Revenue Bond program was \$3,604,708,000 at June 30, 2013.

The University has pledged future continuing education, healthcare facilities, housing, parking, and student union revenues plus designated auxiliary revenues, net of maintenance and operation expenses before extraordinary items (net income available for debt service), to repay \$4,006,698,000 in Systemwide Revenue Bonds issued through fiscal year 2013.

(c) Bond Anticipation Notes (BANs)

The Trustees have authorized the issuance of BANs to provide short-term financing to the University System for certain projects. The BANs are purchased by the Institute with proceeds from the commercial paper issued by the Institute. The BANs are generally issued for periods of up to three years in anticipation of issuing permanent revenue bonds at a future date. State law was amended in 2008 to allow BAN maturities to extend beyond three years and the maturity date for the issuance of BANs to be determined by the Trustees. In fiscal year 2010, the Trustees authorized three projects for financing with maturities beyond three years and they will remain in BANs until the debt is retired. BAN interest is variable and changes based upon the cost of the Institute's commercial paper program. The maximum and minimum weighted average interest rates for the year ended June 30, 2013 were 0.19% and 0.15%, respectively. Amounts outstanding of the total University and discretely presented component units under the BANs totaled \$27,055,000 and \$10,316,000, respectively, at June 30, 2013. The not-to-exceed amounts related to the outstanding amounts totaled \$261,365,000 of which \$126,859,000 has not been issued and \$97,135,000 has been issued and paid back.

Long-term debt principal and interest are payable and mature in the following fiscal years:

	_	Principal	<u> Interest</u>
2014	\$	98,747,000	179,083,000
2015		107,968,000	175,298,000
2016		121,846,000	170,492,000
2017		114,958,000	165,081,000
2018		125,579,000	163,373,000
2019 – 2023		657,087,000	709,225,000
2024 – 2028		720,066,000	541,516,000
2029 – 2033		812,600,000	347,981,000
2034 – 2038		655,005,000	157,934,000
2039 – 2043		287,438,000	30,793,000
2044 – 2048		9,703,000	407,000
2049 – 2053	^ <u>-</u>	1,118,000	6,000
	\$ _	3,712,115,000	2,641,189,000
	_		

Long-term debt obligations of the individual discretely presented component units have been issued to purchase or construct facilities for University-related uses. For additional information regarding long-term debt obligations of the individual discretely presented auxiliary organizations, refer to their separately issued financial statements.

(10) Advanced Refundings

(a) Current Year Refundings

In August 2012, the University partially defeased certain (Series 2002A, 2003A, and 2004A) Systemwide Revenue Bonds by placing a portion of the proceeds from the issuance of the Systemwide Revenue Bonds Series 2012A refunding bonds in an irrevocable trust to provide for all future debt service payments on the refunded bonds. The proceeds from the Series 2012A refunding bonds were used to purchase U.S. federal, state, and local government securities that were placed in escrow accounts. The investments and fixed earnings from the investments are considered sufficient to fully service the defeased debt until the debt is called or matured. These transactions will reduce the University's total financing cost by approximately \$80,511,000 over the life of the bonds. The

Notes to Financial Statements June 30, 2013

economic gain (difference between net present values of the debt service payments on the old debt and new debt) from these transactions was approximately \$52,685,000. Accordingly, the refunded bonds have been considered defeased and, therefore, removed as a liability from the accompanying financial statements. The amount of defeased bonds outstanding related to this refunding as of June 30, 2013 totaled \$352,500,000.

The accompanying financial statements include a total unamortized loss on the refundings of \$32,020,000. The loss represents the difference between the proceeds of the new bond issue, as adjusted for premium or discount, and the principal amounts of the bonds being defeased. The loss is being amortized over the life of the new bond issuance or the old bond issuance, whichever is shorter.

(11) Long-Term Liabilities Activity

Long-term liabilities activity of the University for the year ended June 30, 2013 was as follows:

	Beginning balance	Additions	Reductions	Ending balance	Current portion
Accrued compensated absences Self-insurance claims liability	\$ 202,812,000	132,954,000	(129,951,000)	205,815,000	116,287,000

For additional information regarding the long-term liabilities of the individual discretely presented component units of the University, refer to their separately issued financial statements.

(12) Pension Plan and Postretirement Benefits

(a) Pension Plan

Plan Description

The University, as an agency of the State, contributes to the CalPERS. The State's plan with CalPERS is an agent multiple-employer defined benefit pension plan and CalPERS functions as an investment and administrative agent for its members. For the University, the plan acts as a cost-sharing multiple-employer defined benefit pension plan, which provides a defined benefit pension and postretirement program for substantially all eligible University employees. The plan also provides survivor, death, and disability benefits. Eligible employees are covered by the Public Employees' Medical and Hospital Care Act (PEMHCA) for medical benefits.

CalPERS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the California Public Employees' Retirement System Executive Office, 400 P Street, Sacramento, CA 95814.

48

Notes to Financial Statements June 30, 2013

Funding Policy

University personnel are required to contribute 5% of their annual earnings in excess of \$513 per month to CalPERS. Effective January 1, 2013 all new employees are required to contribute 6% of their annual earnings per month to CalPERS. The University is required to contribute at an actuarially determined rate; the current rate is approximately 21.2% of annual covered payroll. The contribution requirements of the plan members are established and may be amended by CalPERS. There is no contractual maximum contribution required for the University by CalPERS.

The University's contributions to CalPERS for the most recent three fiscal years were equal to the required contributions and were as follows:

2011	\$ 423,818,000
2012	411,926,000
2013	462,607,000

(b) Postretirement Healthcare Plan

In accordance with GASB pronouncements, the University is required to recognize the cost of other postemployment benefits (OPEB) on an accrual basis.

Plan Description

The State provides retiree healthcare benefits to statewide employees, including the University employees, through the programs administered by CalPERS. The State's substantive plan represents a substantive single-employer defined benefit OPEB Plan, which includes medical and prescription drug benefits (collectively, healthcare benefits) to the retired University employees. The University provides dental benefits to eligible University's retirees. Eligible retirees receive healthcare and dental benefits upon retirement at age 50 with 5 years of service credit.

For healthcare benefits, CalPERS offers Preferred Provider Organizations (PPOs), Health Maintenance Organizations (HMOs), and Exclusive Provider Organizations (EPOs) (limited to members in certain California counties); for dental benefits, a Dental Maintenance Organization (DMO) and dental indemnity plans to the University's retirees. Health plans offered, covered benefits, monthly rates, and copayments are determined by the CalPERS Board, which reviews health plan contracts annually.

The contribution requirements of retirees and the State are established and may be amended by the State legislature. For healthcare benefits, the State makes a contribution toward the retiree's monthly health premiums, with the retirees covering the difference between the State's contribution and the actual healthcare premium amount. The State contribution is normally established through collective bargaining agreements. No retiree contribution is required for dental benefits.

Funding Policy

For healthcare benefits, responsibility for funding the cost of the employer share of premiums is apportioned between the State and the University based on "billable" and "nonbillable" accounts.

Notes to Financial Statements June 30, 2013

Billable accounts have special revenue sources such as fees, licenses, penalties, assessments, and interest, which offset the costs incurred by a State department during the year. The University reimburses the State for retiree's health benefit costs allocated to billable accounts but not for costs allocated to nonbillable accounts. The University is responsible for funding the costs of the billable accounts on a pay-as-you-go basis as part of the statewide general administrative costs charged to the University. The State is responsible for funding the cost of the employer share of healthcare premiums of retirees for all nonbillable accounts.

The University is responsible for paying the cost of dental benefits for all University retirees using funds provided by the State through general fund appropriations. The University makes payments directly to Delta Dental for the retiree's monthly dental premiums. The University is paying these benefits on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation

The following table shows the components of the total annual required contribution (ARC) for the University's allocated portion of the postretirement healthcare plan, the amount contributed to the plan by the University, and changes in the University's net OPEB obligation (NOO) for the fiscal year ended 2013:

Annual required contribution (ARC): Billable accounts Nonbillable accounts (dental only)	\$	35,602,000 40,055,000
Total ARC		75,657,000
Contributions: Billable accounts Nonbillable accounts (dental only)		(13,175,000) (16,051,000)
Total contributions	•	(29,226,000)
Increase in net OPEB obligation (NOO)		46,431,000
NOO – beginning of year		172,587,000
NOO – end of year: Billable accounts Nonbillable accounts (dental only)		102,950,000 116,068,000
Total NOO	\$ _	219,018,000
Percentage of annual OPEB cost contributed during the year ended June 30, 2013		39%

Actuarial Methods and Assumptions and Plan Funding Information

As an agency of the State, the University was included in the State's OPEB actuarial study. The analysis of the statewide ARC by accounts is performed by the State Controller's Office (SCO) and a portion related to billable accounts is allocated to the University. Since the ARC allocated by the

Notes to Financial Statements

June 30, 2013

SCO does not provide a breakdown of the ARC for health and dental benefits separately, the ARC for the nonbillable accounts, which related only to dental benefits, was estimated based on dental contributions as a percentage of the total OPEB contributions.

Projections of benefits for financial statement reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the State and the plan members to that point. The actuarial methods and assumptions used are consistent with a long-term perspective. In the June 30, 2012 actuarial valuation, the individual entry age normal cost method was used. The actuarial assumptions included a 4.50% investment rate of return, 4.5% discount rate and an annual State healthcare cost trend rate of actual increases for 2013 and 9.00% in 2014, initially, reduced to an ultimate rate of 4.50% after seven years. Both rates included a 3.00% annual inflation assumption. Annual wage inflation is assumed to be 3.25%. The unfunded actuarial accrued liabilities are being amortized as a level percentage of projected payroll on an open basis over a 30-year period.

Funding progress information specifically related to the University's portion of the statewide OPEB plan is not available. For more details about the actuarial methods and assumptions used by the State as well as the statewide plans' funding progress and status, refer to the State of California's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended 2013.

(13) Claims Liability for Losses and Loss Adjustment Expenses

The University and certain auxiliary organizations have established the CSURMA, a discretely presented component unit of the University, to centrally manage workers' compensation, general liability, industrial and nonindustrial disability, unemployment insurance coverage, and other risk-related programs. The cliams liability included in the discretely presented component unit column reflects the estimated ultimate cost of settling claims related to events that have occurred on or before June 30, 2013. The liability includes estimated amounts that will be required for future payments of claims that have been reported and claims related to events that have occurred but have not yet been reported. The liability is also reduced by estimated amounts recoverable from the reinsurer that are related to the liabilities for unpaid claims and claim adjustment expenses. The liability is estimated through an actuarial calculation using individual case basis valuations and statistical analyses. Although considerable variability is inherent in such estimates, management believes that the liability is a reasonable estimate at June 30, 2013.

(14) Commitments and Contingencies

The State is a defendant in multiple lawsuits involving University matters not covered by the CSURMA discussed in note 13. Management of the University is of the opinion that the liabilities, if any, arising from litigation will not have a material effect on the financial position of the University.

Federal grant programs are subject to review by the grantor agencies, which could result in requests for reimbursement to grantor agencies for disallowed expenditures. Management believes that it has adhered to the terms of its grants and that any disallowed expenditures resulting from such reviews would not have a material effect on the financial position of the University.

Notes to Financial Statements June 30, 2013

Authorized but unexpended expenditures for construction projects as of June 30, 2013 totaled \$213,819,000. These expenditures will be funded primarily by State appropriations and bond proceeds.

In order to secure access to natural gas and electricity used for normal operation, the University participates in forward purchase contracts of natural gas and electricity operated by the Department of General Service (DGS) and Shell Energy North America (Shell), respectively. The University's obligation under these special purchase arrangements requires it to purchase an estimated total of \$34,916,000 and \$25,743,000 of natural gas and electricity at fixed prices through June 2017 and March 2014, respectively. The University estimates that the special purchase contracts in place represent approximately 55.50% and 13.77% of its total annual natural gas and electricity expenses, respectively.

(15) Classification of Operating Expenses

The University has elected to report operating expenses by functional classification in the statement of revenues, expenses, and changes in net position, and to provide the natural classification of those expenses as an additional disclosure. For the year ended June 30, 2013, operating expenses by natural classification consisted of the following:

2005 #27	Salaries	Benefits	Scholarships and fellowships	Supplies and other services	Depreciation and amortization	Total
Functional classification:						
Instruction	\$ 1,391,670,000	568,922,000	_	172,694,000	_	2,133,286,000
Research	20,782,000	6,669,000	_	15,052,000	_	42,503,000
Public service	31,595,000	10,524,000		23,185,000		65,304,000

Student services	327,966,000	148,605,000	ш	176,570,000	- '	653,141,000
Institutional support	327,452,000	147,659,000	_	165,308,000		640,419,000
Operation and maintenance						-
of plant	178,138,000	99,011,000	_	251,627,000	_	528,776,000
Student grants and scholarships	11"	_	826,933,000	-	_	826,933,000
Auxiliary enterprise expenses	66,461,000	49,946,000		164,905,000		281,312,000
Depreciation and amortization					435,530,000	435,530,000
Total	\$ 2,656,727,000	1,169,261,000	826,933,000	1,119,957,000	435,530,000	6,208,408,000

(16) Transactions with Related Entities

The University is an agency of the State and receives about 32.7% of total revenues through state appropriations. State appropriations allocated to the University aggregated approximately \$2.1 billion for the year ended June 30, 2013. State appropriations receivable aggregated \$361,943,000 at June 30, 2013.

(17) Subsequent Events

In July 2013, a BAN of approximately \$25 million was issued for the Student Health & Counseling Center at the San Jose campus. In August 2013, BANs of approximately \$19.2 million was issued for Student Housing at the Bakersfield campus. In September 2013, a BAN of \$10 million and \$24.8 million was issued for Student Housing Phase II at Northridge and Granada Apartment Acquisition at San Diego campuses, respectively.

Notes to Financial Statements

June 30, 2013

In August 2013, the University issued its Systemwide Revenue Bonds Series 2013A in the amount of \$308,855,000. Proceeds were used to refund certain maturities of Systemwide Revenue Bonds Series 2005A and 2005C, as well as refund outstanding bond indebtedness issued by an auxiliary organization.

Also in July 2013, Standard & Poor's Ratings Services upgraded the intrinsic rating for the Systemwide Revenue Bonds to AA- with a stable outlook.

COMMITTEE ON AUDIT

Single Audit Reports of Federal Funds

Presentation by

Sally Roush Interim Vice Chancellor Business and Finance

George Ashkar Assistant Vice Chancellor/Controller Financial Services

Summary

Federal awards received by the California State University (CSU), including student financial aid, are subject to both compliance and internal control audit procedures as required by the Office of Management and Budget, Circular A-133.

The CSU A-133 Single Audit Reports were issued ahead of the schedule in October with an unmodified (i.e. clean) opinion. There was one finding (2013-01), which was not a material weakness, relating to internal control over the return of Title IV funds at three campuses. Corrective action is in progress and a status update will be provided at the Board meeting in March.

In summary, the fiscal year ending June 30, 2013 was a successful year from an audit perspective. Representatives from KPMG, the Systemwide audit firm, will be present to answer questions.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Trustees
California State University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of the California State University, an agency of the State of California (the State), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise California State University's basic financial statements, and have issued our report thereon dated October 15, 2013. Our report refers to other auditors who audited 90 of the 92 aggregate discretely presented component units, which statements reflect total assets constituting 94% and total revenues constituting 94% of the aggregate discretely presented totals. The reports of the other auditors have been furnished to us, and our opinions, insofar as they relate to the amounts included for the 90 aggregate discretely presented component units, are based solely on the reports of the other auditors. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters in accordance with Government Auditing Standards that are reported on separately by those auditors.

Our report also refers to the California State University's adoption of the provisions of the Governmental Accounting Standards Board's (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus*, as of June 30, 2013, which resulted in the restatement of net position as of the beginning of the year for both the California State University and the discretely presented component units in the amount of \$58,358,000.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered California State University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of California State University's internal control. Accordingly, we do not express an opinion on the effectiveness of California State University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether California State University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the California State University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering California State University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

KPMG LLP

October 15, 2013

KPMG LLP Suite 2000 355 South Grand Avenue Los Angeles, CA 90071-1568

Independent Auditors' Report on Compliance for Each Major Program; Report on Internal Control over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations

The Board of Trustees
California State University:

Report on Compliance for Each Major Federal Program

We have audited the California State University's (the University), an agency of the State of California, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2013. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The University's basic financial statements include the operations of the University's related discretely presented component units, which received federal awards and which are not included in the accompanying schedule of expenditures of federal awards for the year ended June 30, 2013. Our audit, described below, did not include the operations of the component units because the component units engaged other auditors to perform audits in accordance with OMB Circular A-133.

We did not audit the University's compliance with the requirements governing maintaining contact with and billing borrowers and processing deferment and cancellation requests and payments in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement. Those requirements govern functions performed by Educational Computer System, Inc. (ECSI). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. ECSI's compliance with the requirements governing the functions that it performs for the University for the year ended June 30, 2013, was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers. Our report does not include the results of the other accountants' examination of ECSI's compliance with such requirements.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of

compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item SA-2013-1. Our opinion on each major federal program is not modified with respect to these matters.

The University's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

Requirements governing maintaining contact with and billing borrowers and processing deferment and cancellation requests and payments in the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement are performed by ECSI. Internal control over compliance related to such functions for the year ended June 30, 2013, was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers. Our report does not include the results of the other accountants' testing of ECSI's internal control over compliance related to such functions.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item SA-2013-1, that we consider to be significant deficiencies.

The University's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the California State University, an agency of the State of California (the State), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise California State University's basic financial statements, and have issued our report thereon dated October 15, 2013, which contained an unmodified opinion on those financial statements. Our report refers to other auditors who audited 90 of the 92 aggregate discretely presented component units. The reports of the other auditors have been furnished to us, and our opinions, insofar as they relate to the amounts included for the 90 discretely presented component units, are based solely on the reports of the other auditors. Our report also refers to the University's adoption of the provisions of the Governmental Accounting Standards Board's Statement No. 61, The Financial Reporting Entity: Omnibus, as of June 30, 2013, which resulted in the restatement of net position as of the beginning of the year for both the California State University and the discretely presented component units in the amount of \$58,358,000. Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial

5

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

See accompanying notes to schedule of expenditures of federal awards and independent auditors' report on compliance for each major program; report on internal control over compliance; and report on schedule of expenditures of federal awards required by OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

Notes to Schedule of Expenditures of Federal Awards Year ended June 30, 2013

(1) General

The accompanying schedule of expenditures of federal awards (the Schedule) presents the activity of all federal award programs of the California State University (the University). The University generally does not consider itself a subrecipient of federal funds when those funds are received from individual campus foundations. Rather, the University considers amounts received from foundations as payments for services rendered, even though such amounts may have originated from federal agencies. Accordingly, these amounts are not reflected in the accompanying Schedule.

For purposes of the Schedule, federal awards include all grants and contracts entered into directly between the University and agencies and departments of the federal government and pass-through agencies. The awards are classified into major program categories in accordance with the provisions of Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

(2) Basis of Accounting

The information in the accompanying Schedule is prepared on the accrual basis of accounting and is also presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

(3) Loan Programs

Total loans outstanding under the Federal Perkins Loan Program and the Nursing Student Loan Program were \$89,600,848 and \$1,879,327, respectively, at June 30, 2013. The amounts included in the accompanying Schedule consist of loans advanced to students and the administrative cost allowance for the year ended June 30, 2013.

(4) Administrative Cost Allowances

Administrative cost allowances included in the accompanying Schedule are summarized as follows:

Federal Perkins Loan Program	\$	1,343,066
Federal Pell Grant Program		653,560
Federal Supplemental Educational		•
Opportunity Grant Program		72,558
Federal Work-Study Program	_	282,543
	\$_	2,351,727

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2013

(5) Amounts Provided to Subrecipients

Award year:

July 1, 2012 through June 30, 2013

Compliance Requirement

Special Tests and Provisions – Return of Title IV Funds

Criteria

Title 34 Education. Chapter VI – Office of Postsecondary Education, Department of Education. Part 668 Student Assistance General Provisions. Subpart B Standards for Participation in Title IV, HEA Programs. Sec. 668.22 Treatment of Title IV Funds when a student withdraws. (e) Calculation of the amount of title IV assistance earned by the student – (1) General. The amount of title IV grant or loan assistance that is earned by the student is calculated by – (i) Determining the percentage of title IV grant or loan assistance that has been earned by the student, as described in paragraph (e)(2) of this section; and (ii) Applying this percentage to the total amount of title IV grant or loan assistance that was disbursed (and that could have been disbursed, as defined in paragraph (l)(1) of this section) to the student, or on the student's behalf, for the payment period or period of enrollment as of the student's withdrawal date. (j) Timeframe for the return of title IV funds. (1) An institution must return the amount of title IV funds for which it is responsible under paragraph (g) of this section as soon as possible but no later than 45 days after the date of the institution's determination that the student withdrew as defined in paragraph (l)(3) of this section. The timeframe for returning funds is further described in § 668.173(b).

Condition Found and Context

For performance of procedures over the California State University's (the University), compliance with the Return of Title IV Funds criteria, we performed testwork at 8 campuses using a sample size of 200. We noted the following as a result of our testwork:

- The Sonoma campus did not have effective controls in place to ensure the accuracy of the computation of Return of Title IV Funds. There were 8 errors in the total population of 61 students requiring refund calculations. We identified 5 of 61 students where the funds were returned to the student instead of the federal program. These errors resulted in an underpayment of \$11,830 to the affected federal programs. Further, for 2 of 61 students, the refunds were incorrectly calculated resulting in an overpayment of \$85 to the affected federal programs. The last error pertained to one student, in which the grant amount was not returned, resulting in an underpayment of \$508 to the affected federal programs. Total refunds processed at the Sonoma campus for the year ended June 30, 2013 totaled \$137,014.
- At the San Diego campus, we noted a late Return of Title IV Funds in 3 of 25 items sampled.
- The Channel Islands campus did not have documented controls in place over the completeness of students that withdrew and were subject to a Return of Title IV Funds. We did not identify any items of noncompliance as a result of our procedures.

Cause and Effect

With respect to the finding at the Sonoma campus, we noted ineffective management controls over the review of the refund process. As a result, errors were not identified by campus personnel.

Schedule of Findings and Questioned Costs Year ended June 30, 2013

With respect to the finding at the San Diego campus, due to a lack of a timely review over refunds, three samples at the San Diego campus were returned after the deadline required by the federal programs.

Questioned Costs

Known amount of \$12,253, net, relating to the under return of funds to Title IV programs at the Sonoma campus.

Recommendation

We recommend that effective internal control procedures be implemented to ensure that the return of funds is processed accurately in addition to being returned in a timely manner. Additionally, proper documentation needs to be retained in order to demonstrate the existence of control procedures.

Views of Responsible Officials

The University concurs with the recommendation. Campuses are implementing additional controls to ensure the accuracy of refund/return calculations, the timely review and return of funds, and maintaining appropriate documentation as applicable to their specific campus finding(s).

Agenda Item 7 January 28 - 29, 2014 Page 1 of 1

COMMITTEE ON AUDIT

National Collegiate Athletic Association Agreed-Upon Procedures

Presentation by

Sally Roush Interim Vice Chancellor Business and Finance

George Ashkar Assistant Vice Chancellor/Controller Financial Services

Summary

Colleges and universities with intercollegiate athletic programs as members of the National Collegiate Athletic Association (NCAA) are subject to the NCAA's financial agreed-upon procedures reporting requirements. Division I schools are subject to agreed-upon verification procedures of financial data related to athletic programs annually and required to submit the financial data to NCAA annually. Division II schools are subject to agreed-upon verification procedures of financial data related to athletic programs at least once every three years, but should submit the financial data to NCAA annually.

The preliminary review of the reports from the campuses for fiscal years prior to 2012-2013 indicated that not all campuses may be in compliance. The Chancellor's Office sent a memo to campus presidents in November 2013 reminding them of the responsibility to ensure continuous compliance with the NCAA requirements. Since the NCAA agreed-upon procedures reports and data submission are due on January 15, we have not received the reports for the fiscal year ending June 30, 2013 at the time of drafting the agenda. We will report to the Board in March regarding the status of NCAA compliance by campus, based on the latest reports from the campuses.
